SUSTAINABILITY SPECIAL INTEREST HOUSES

Academic Year 2013 – 2014

In cooperation with the Sustainability, Energy and the Environment Initiative (SEE), the sustainability special interest houses will be open to both male and female (separate houses), sophomores, juniors, and seniors who will be completing a 5th year.

Students will be able to work with UD Facilities to plan and implement sustainability projects for their house as well as plan community events and programming relating to sustainability issues. Be part of this unique housing opportunity and be part of planning for future green-living improvements in the student neighborhood.

SEE House Applicants must:

- be working toward the SEE Minor
- be a River Steward
- have completed or are registered for Spring 2013 UDI 324 - Living Simply and Sustainably Mini-course or SEE 250 – Introduction to SEE

The SEE Houses for the Academic Year 2013-14 will be:

- 116 Evanston (5 person)
- 124 Evanston (6 person)
- 406 Stonemill (8 person)

Each student must complete an individual SEE special interest house application. You will be able to indicate on the application which house you are applying for and the names of the rest of your house members who will also be applying.

QUESTIONS? Want to Apply?
Contact the SEE House Advisors:

Kelly Bohrer – Center for Social Concern
