# WELCOME TO THE OSHER LIFELONG LEARNING INSTITUTE AT THE UNIVERSITY OF DAYTON

The Osher Lifelong Learning Institute (UDOLLI) began 29 years ago as the University of Dayton Institute for Learning in Retirement or UDILR. Since 2004, we have been proud members of the Osher Lifelong Learning Network, a group of 125 institutes across the country dedicated to meeting the needs of adult learners over 50 years of age who wish to gather for the joy of learning and personal fulfillment.

## OUR MISSION STATEMENT

The purpose of the Osher Lifelong Learning Institute at the University of Dayton is to offer adults 50 years or better a wide variety of seminars based on the peer-learning concept and designed to be intellectually stimulating in an informal and noncompetitive environment.

### **We are a vibrant community**

We are adults with wide-ranging interests in art, current events, health and fitness, history, literature, music, religion and science. A curriculum committee works with the Executive Director of Special Programs and Continuing Education to select our curriculum on the basis of member requests, the expertise of moderators, variety and balance. Moderators include University of Dayton (UD) professors and community professionals who lead peer-to-peer informal lecture and discussion seminars that typically meet once a week for two hours, for three to eight weeks.

### **Our seminars are noncredit**

There are neither tests nor grades, nor educational requirements. Participation is essential, ranging from keeping up with assigned readings and contributing to seminar discussion to sharing the results of one's own research. A majority of our seminars are held on the University of Dayton River Campus in Daniel J. Curran Place, 1700 South Patterson; others are on the UD main campus with a few at off-site locations, such as the Boonshoft Museum of Discovery.

### **UDOLLI is a cooperative venture**

We rely on the contributions and participation, both in seminars and out, of each member. Members assist the Executive Director of Special Programs and Continuing Education by moderating seminars, coordinating lecture series, leading small group discussions, organizing activities and volunteer projects, serving on the board of advisors and committees, acting as seminar liaisons, helping in the office and volunteering for all other tasks that keep us going.

### **Becoming a member of UDOLLI is easy**

Registering for seminars is simple and convenient. Once you register for a seminar, you automatically become a UDOLLI participating member for the current academic year. The term of membership conforms to the academic calendar, beginning in September and ending in June. Friends of the Institute are individuals who donate \$80 or more each year to support UDOLLI's goals; Life Members are individuals making a one-time donation of \$2,000 or more; and Distinguished Service Life Members are individuals giving UDOLLI extraordinary service. Life and Distinguished Members may attend seminars at no cost.

We are part of the University of Dayton's Office of Special Programs and Continuing Education, which is directed by Julie Mitchell and sponsors lifelong learning and professional development programs. Founded in 1994 as the University of Dayton Institute for Learning in Retirement, we have grown from the original 98 members to more than 2,000 members.

### **Enjoy member benefits**

As a UDOLLI member, you are invited to participate in UDOLLI activities and related continuing education-sponsored events such as the Duane W. Chapman Senior Symposium, Senior Fellows undergraduate audit program, New Horizons Music, Dayton Celebration Chorus and University programs.

As a UD community member, you are invited to participate in UD-sponsored activities such as lectures, recitals, and art and cultural events, and enjoy campus privileges such as Roesch Library and the RecPlex (membership fee required). # WEDNESDAY SEMINARS

## **So, What Did You Do During Your Summer Vacation? NEW**

Writer Maya Angelou once observed: *"Every person needs to take some time away. Time in which one consciously separates the past from the future. Each person deserves time away in which no problems are confronted, no solutions searched for. Each of us needs to withdraw from those cares which will not withdraw from us."*

In this seminar we will explore a bit of the history of the American vacation. In earlier eras vacations were largely viewed as fashionable indulgences engaged in by the wealthy and the elite. In reality it was not until the post-WWII '50s when many folks actually could *afford* to take vacations did this respite become a staple of American life. The growth of automobile ownership, rising middle-class wealth, and paid vacations for many contributed to the now ensconced idea of "vacation time."

We'll speak to what was arguably the "birthplace" of the American vacation -- the Adirondacks -- an area that by 1875 had over 200 vacation hotels and campgrounds; those vacations that centered on learning and social gatherings encompassed by the various iterations of the Chautauqua Movement; and then later the development of large vacation resorts. Today of course the vacation and tourism businesses are **big** business!

In good humor, we'll also view clips from a few movies and TV shows that parodied the joys and mishaps of the family vacation. Who doesn't remember the hilarious *National Lampoon Vacation* movies or Lucy and Desi's vacation as they passed through Ohio? Participants should come prepared to share a quick story about their best (or worst) vacation experiences!

## UDOLLI Community Sing-along

“The hearts of people who sing together beat in unison.” For generations people sang together—at family gatherings, around campfires, in church, in social groups and service clubs, around parlor pianos, at rallies in support of causes and among friends in support of shared memories. They sang, joined in recognition of common melodies and words that connected and united generations. They sang songs of faith, struggles, tragedy, yearnings, disasters, love won, and love lost.

This special summer event will help us kick off the 30<sup>th</sup> Anniversary year for UDOLLI. Together we will celebrate our learning community and the tradition and joy of community singing.

Songbooks will be provided containing sing-able tunes of the 50s, 60s and 70s; classic “folk” and country songs; old-time gospel music and a few vintage “Tin Pan Alley” chestnuts that refuse to die.

You won’t want to miss this so plan to join us on: Thursday, August 8  
6 p.m. UDOLLI 30<sup>th</sup> Anniversary Kick-Off Picnic Buffet Dinner  
7 p.m. Sing-along with Bill Schuerman  
Daniel J. Curran Place Dining Room

*Bill Schuerman is a former University of Dayton VP and dean. He has moderated UDOLLI seminars for over 25 years. He would describe himself as “an old folkie from the 60s” when he played in a Queen City Balladeers group called The Sink Top Replacements. Some might, with deep regret, know him from the infamous, less-than-popular Dayton band, The Back Porch Jam. Bill served as song leader for a similar UDOLLI event a number of years ago and has led annual sing-alongs around the campfire for UDOLLI board retreats.*

In 2014, the group affiliated with the University of Dayton Office of Special Programs and Continuing Education.

Performance venues have included the Schuster Center for the Performing Arts, Courthouse Square Grande Illumination, Kroc Center, Dayton Art Institute, Victoria Theatre, The Greene, UD Arena, Fifth Third Field, and various churches and retirement communities. ## **New Horizons Music**

Learn to play music in a band as a senior adult—even if you have no musical experience! Playing music is a special joy that will help you maintain mental and physical health. It is also a way of experiencing life—playing music from the past keeps us in touch with those feelings; daily practice keeps us active in the present; and striving for new goals attaches us to the future. One band member describes it as “serious fun.”

As a member of New Horizons Music, you will meet new friends and work with them as a team to learn music for concerts and other performances in the community. New Horizons ensembles typically perform many times each year in venues ranging from formal concerts to shopping malls and from parks to retirement and nursing homes.

UD New Horizons Music offers adults 50 years of age or better the opportunity to begin a musical instrument and provides a re-entry point for those who have been away from active music making for many years. Instruments taught include: flute, oboe, bassoon, clarinet, saxophone, trumpet, French horn, trombone, baritone, tuba and percussion.

# CONNECTING GENERATIONS & CULTURES

A TALENT BANK & CLEARING HOUSE PROGRAM

*With age comes experience and wisdom that can be priceless when shared with others*

## 1. What Is This Program About?

The UDOLLI Connecting Generations & Cultures (CGC) program connects UDOLLI to the Dayton area community utilizing our vibrant, highly educated, experienced, and talented members. Connecting Generations & Cultures is a Talent Bank & Clearing House program for community organizations. We put your talents to work by connecting you to organizations to help carry out their mission. As members of our program, many of you are ready and anxious to share your decades of knowledge, experience and wisdom with those who can benefit.

## 2. Connecting Criteria

The CGC program has been reaching out to various community groups, and many have reached out to us. We connect to organizations that meet any one of these criteria: is it educational, cultural, civic, social, governmental, inter-generational? Can our members and the organization's members contribute to and benefit from the connection experience? As opportunities come along, we promote them to UDOLLI members. Let us know of any organizations you feel would make a good connection with our program.\*

\*NOTE: A recommendation is no guarantee we will make a connection. We carefully review every idea to ensure it fits within UDOLLI's mission and the objectives of the Connecting Generations & Cultures program. Our Executive Director makes all final decisions. All UDOLLI members involved with any Connecting Generations & Cultures program must understand and accept that they represent the Osher Lifelong Learning Institute at the University of Dayton and must adhere to all rules and regulations that may apply to the University and our program.

## 3. Connecting You

Here's how we get you connected. We communicate an organization's needs in a variety of ways: email, newsletter, seminar announcements, special presentations and promotional flyers. You'll learn about the organization, decide if you're interested and then you reach out to the organization's contact directly. You are then on your way to a new adventure.

Your connection could be for a single project or an ongoing program. For example, you could share your ideas during a creative planning session or work with the organization on a regular basis to carry on their mission. There may be several of your fellow UDOLLI members involved in the same activity, or it might be just you. Whatever project or organization you get involved with, you will meet new friends and perhaps build lifelong relationships. You may even find that a connection can be life changing. You may be a senior, but you're not done yet! You can share your years of experience and wisdom to make our community a better place.

#### 4. Our Connected Partners

The following list includes all organizations to-date we have connected with since the inception of CGC in 2013. With some of our connections our members have been deeply involved working on a variety of projects, while with others we are just getting started in making deeper connections. The connection may currently be active or inactive. Our members have contributed their expertise in a variety of ways: teaching, mentoring, donating, facilitating deliberation discussions, and facilitating creative and strategic planning sessions.
