

WELCOME TO UD!

SCHOOL OF EDUCATION AND HEALTH SCIENCES *Admitted Student Day*

Today, you'll learn more about the School of Education and Health Sciences, speak with University of Dayton admission and financial aid counselors, and meet students and faculty during academic sessions.

You can also meet with a financial aid counselor during our walk-in session. Our counselors can answer questions about your individual financial situation or explain more about our transparent tuition plan – with no tuition increases and no fees – which we created to give your family peace of mind all four years.

UD is nationally recognized for providing exceptional value to students. It's why *Money* magazine ranks us in the top 25 “Most Transformative Colleges” in the nation for graduation rates, earnings and student loan repayment. We're happy to answer any questions you might have!
