STARS

A luncheon featuring LASC Grant awardees

Please join us for the last of the three STARS luncheons featuring the 2018-19 LASC Grant awardees. Funded by the College of Arts & Sciences, the LASC Grants program was established to support faculty scholarship in the liberal arts, including scholarship from the Humanities, Social Sciences, and Arts divisions of the College. The program makes available, on a competitive basis, funds for scholarly and creative work that shows clear potential for increasing a faculty member's research productivity and advancing professional goals.
