contact with Byzantium, was reintroduced to Europe by Islamic scholars in the 1100s. It was rapidly incorporated into Jewish and Christian theology, most notably by Moses Maimonides's *The Guide of the Perplexed* (twelfth century) and Thomas Aquinas's *Summa theologiae* (1265–1274; never completed). This synthesis of Aristotelian philosophy and Christian theology was eventually

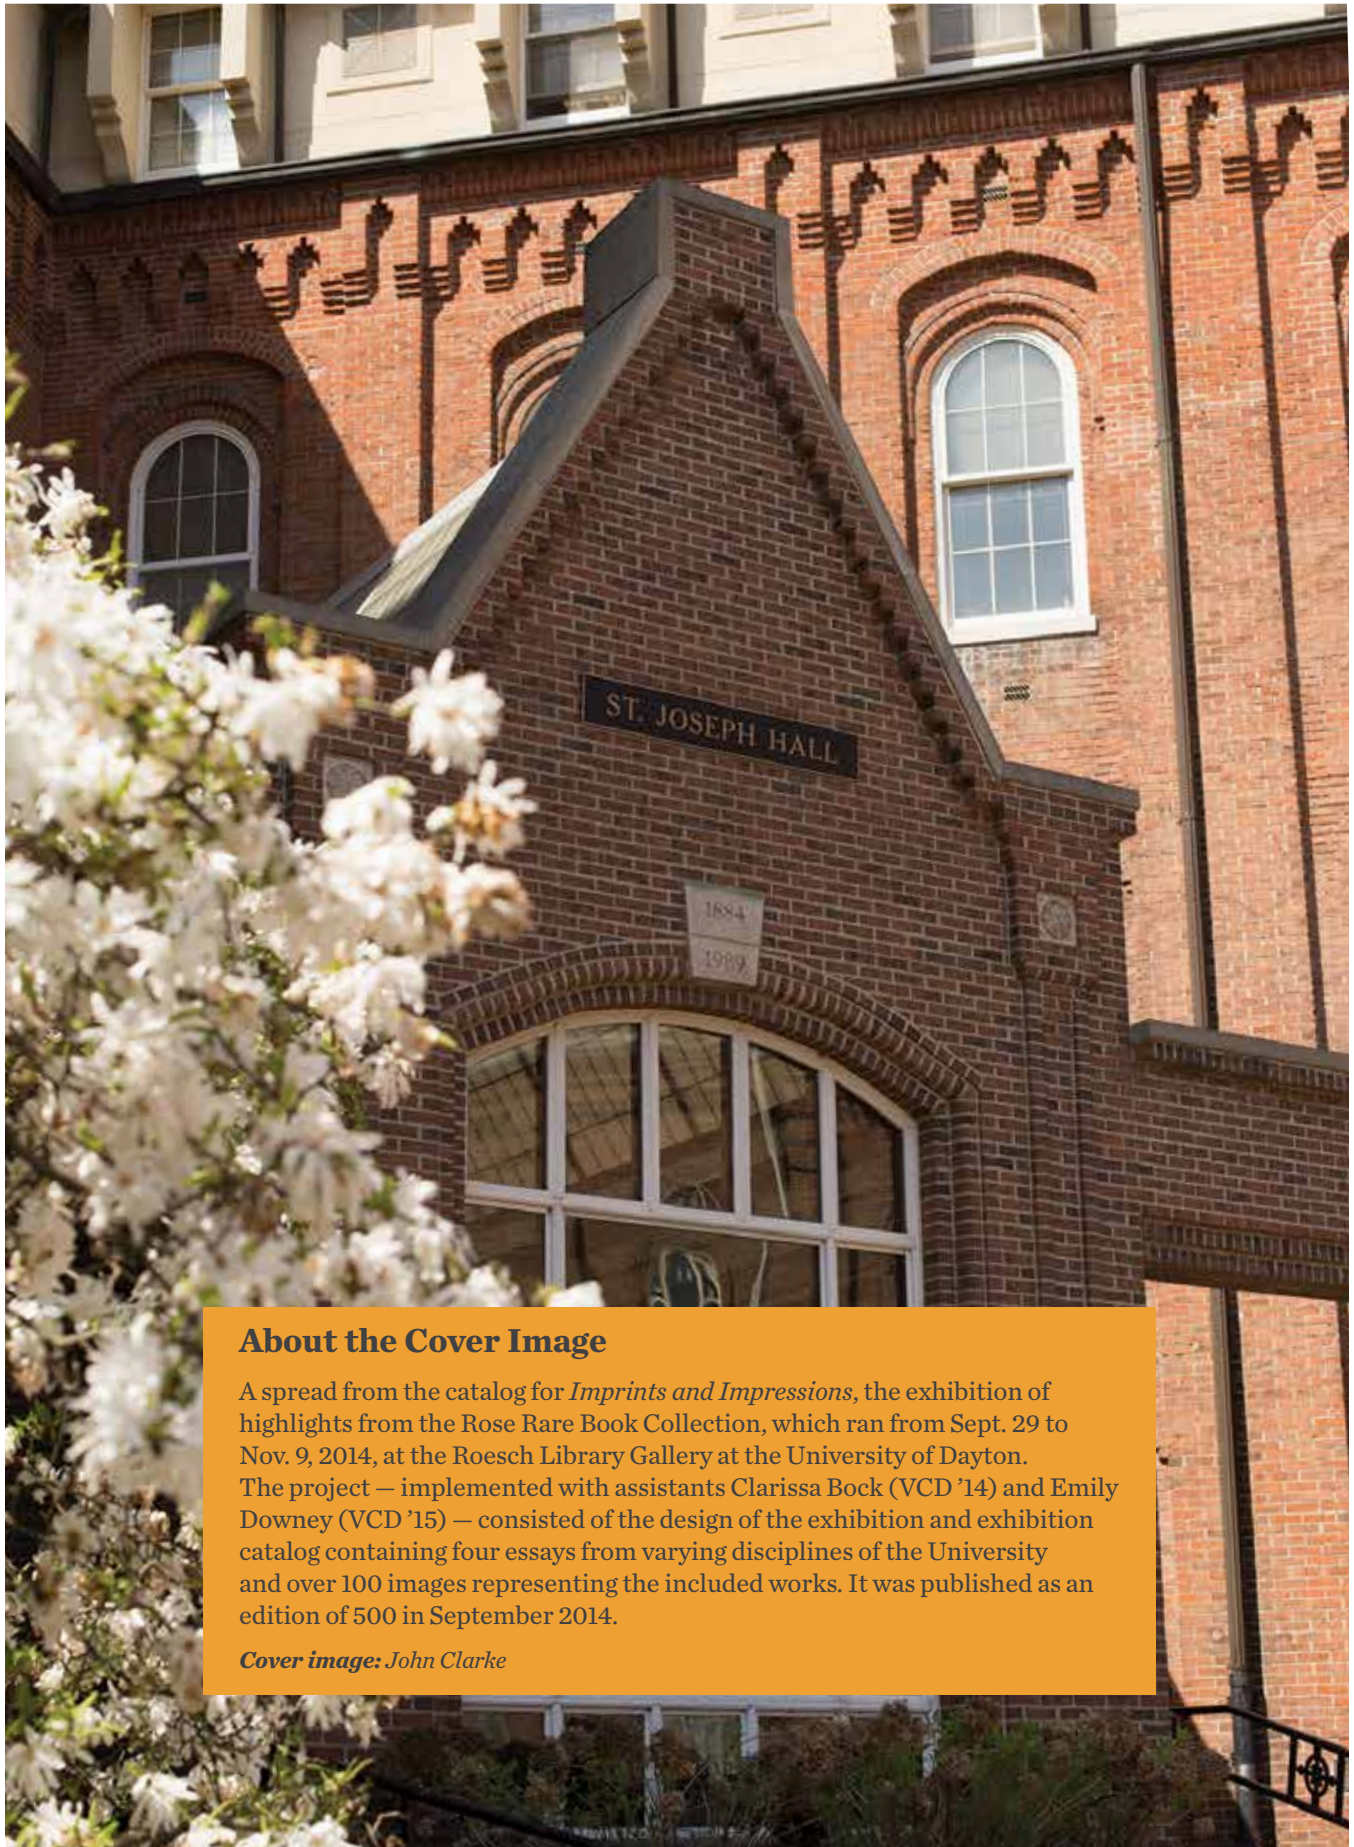

so thoroughly vanquished that of his detractors that the *Summa* was placed on the altar alongside the Bible at the Council of Trent (1545–1563). Trent—*at Aquinas's philosophy came to be known—has been the official philosophy of the Catholic Church since Pope Leo XIII declared it such in 1879.*

Through a theologian, Aquinas significantly impacted subsequent scientific developments. By incorporating the mathematical cosmology of Aristotle into Christian theology, Aquinas laid the stage for the famous conflict between Galileo and the Church (and a century after Trent, when the process of the heliocentric cosmology of Copernicus and Kepler were becoming increasingly clear).

### **About the Cover Image**

A spread from the catalog for *Imprints and Impressions*, the exhibition of highlights from the Rose Rare Book Collection, which ran from Sept. 29 to Nov. 9, 2014, at the Roesch Library Gallery at the University of Dayton. The project — implemented with assistants Clarissa Bock (VCD '14) and Emily Downey (VCD '15) — consisted of the design of the exhibition and exhibition catalog containing four essays from varying disciplines of the University and over 100 images representing the included works. It was published as an edition of 500 in September 2014.

ARISTOTLE + SCRIPTURE = THE NEW THIRTEENTH-CENTURY MAIMONIDES AND AQUINA

Aristotle's philosophy, large influence of the Western Roman contact with Byzantium, was scholars in the 1100s. It was and Christian theology, made *The Guide of the Perplexed* and Aquinas's *Summa theologiae* (1265) synthesis of Aristotelian philosophy controversial and problematic because it appeared to place par with holy writ. Maimonides, the latter in spite of v of his colleagues at the University. In fact, Aquinas's triumph vanquished that of his placed on the altar alone Trent (1545-1563). Thomism — as Aquinas be known — has been the official Church since Pope Leo XIII died.

Though a theologian, Aquinas' recent scientific developments, altered cosmology of Aristotle in helped set the stage for the fall and the Church half a century of the heliocentric cosmology of Copernicus becoming increasingly clear.

When meeting prospective students and their families about the college selection process, I encourage them to learn as much as possible about the faculty at the institutions they're considering, specifically what faculty work activities are prioritized. Here at the University of Dayton we embrace the vision of faculty as teachers and scholars. This vision creates a dynamic academic environment for students and faculty alike.

In this publication the College celebrates the scholarly and artistic achievements of College of Arts and Sciences faculty for 2014. In calendar year 2014, faculty members in the College received over \$600,000 in national grant and fellowship awards. College faculty also authored or created 18 books, 40 book chapters, 212 journal articles and reviews, and 145 performances and exhibits in the past year. This publication honors these scholarly and artistic achievements.

The College held its annual recognition of outstanding faculty accomplishment on April 10, 2015. Faculty members honored as recipients of the College's faculty awards were: Dr. Miriamne Krummel (English) for outstanding scholarship, Dr. Donna Cox (music) for outstanding teaching and Dr. Sharon Davis Gratto (music) for outstanding service. Dr. Melissa Layman-Guadalupe (psychology) received the College's award for outstanding contribution by a full-time, non-tenure-line faculty member. Brief articles are included in this publication about the exemplary commitments of these faculty colleagues to their students, their scholarly fields and the University.

The College also recognizes the accomplishments and dedication of faculty retirees who have been promoted to the rank of professor emeritus/a: Prof. Darrell Anderson (theatre), Dr. Marilyn Fischer (philosophy), Dr. Katy Marre (English), Dr. William Roberts (religious studies) and Prof. Sean Wilkinson (art & design). The College also recognizes Dr. Linda Majka's posthumous promotion to professor emerita. The legacy they leave on campus is enormous and I thank them for their years of dedicated service.

I congratulate the College faculty on their scholarly and artistic accomplishments and acknowledge the creativity and dedication reflected in these pages.

## Outstanding Scholarship Award: Miriamne Krummel

Since arriving at the University of Dayton in 2002, **Dr. Krummel** has established herself as a highly respected scholar, both nationally and internationally. Her work focuses specifically on Jewishness in medieval Europe. She has been an active scholar, having published one book, five peer-reviewed articles, three book chapters, several book reviews and a number of creative nonfiction essays. She has delivered more than 20 conference presentations and invited lectures and has served as a reader for professional journals, publishers and a graduate award program. However, it has been the importance, not the quantity, of her work that has led to her selection as the 2014 recipient of the scholarship award.

Dr. Krummel is a meticulous and innovative scholar. Her book, *Crafting Jewishness in Medieval England: Legally Absent, Virtually Present* (2011), has been described as

“groundbreaking” and “transformative in the field of medieval English Jewish-Christian relations.” In producing this work, Dr. Krummel drew on archival, literary-analytical and historical methods examining legal codes, literary texts, manuscript illuminations, travel writings and religious meditations in languages which included Latin, Hebrew, Middle English and Anglo-Norman French.

Regarding this work, whose major premise is that the cultural awareness and influence of the Jews was more present in England following their expulsion in 1290 than beforehand, one leading authority expresses admiration of Dr. Krummel’s novel ability to read the agency of medieval Jewish authors, showing how those victimized were able to express their perspectives in disguised form using literary and liturgical traditions. He further states that Dr. Krummel’s work provides a model for a way in which to read minority literatures that are embedded within hostile majority cultures and discourses.

*Crafting Jewishness* also presents an argument for the role of the monstrous caricature of the Jews as “other” in the early movement of England toward nationhood. Dr. Krummel is currently working on another book, *The Medieval Postcolonial Jew*, which examines this caricature of the monstrous “other” as a precursor of Europe’s later political oppression of other ethnic groups in the early modern and modern eras. Says another leading scholar, “Miriamne brings to her work the intensity and wonder of one who is rapt with curiosity and concern for the other. She sees her work as fulfilling the demand to heal the world, in Hebrew, *tikkun olam*. Her work addresses those lives that have been relegated, erased, forgotten. Her work is an effort to claim and reclaim the preciousness of the other.”

In recognition of her expertise, Dr. Krummel was invited to travel to Uppsala Universitet in Stockholm, Sweden, to participate in the workshop “The Medieval Roots of Antisemitism.” For this coming academic year, Dr. Krummel will be a visiting professor at the University of Michigan, where she has been awarded a highly competitive fellowship from the Frankel Institute for Advanced Judaic Studies in order to complete her current book project.

For her groundbreaking work, Dr. Krummel is the 2014 recipient of the College of Arts and Sciences Award for Outstanding Scholarship. We express appreciation for her excellence in research.

## The Schuellein Chair in the Biological Sciences: Dr. Carissa Krane

The Schuellein Chair in the Biological Sciences recognizes outstanding accomplishments and contributions of a faculty member in the Department of Biology, with particular emphasis on excellence in mentoring students through research. The position was created through a planned gift from Robert J. Schuellein, Ph.D. ('44).

Dr. Schuellein helped establish the Department of Biology's graduate program and mentored many of the program's first graduates.

**Dr. Carissa Krane** is the first Schuellein Chair in the Biological Sciences at the University of Dayton. She is a professor in the Department of Biology with a joint appointment in bioengineering. She earned her honors B.S. degree in biochemistry/molecular biology from Marquette University and her Ph.D. degree in molecular genetics from Washington University in St. Louis. Dr. Krane was a postdoctoral research fellow at the University of Cincinnati College of Medicine in the Program of Excellence in Heart and Lung Biology prior to joining the faculty in the Department of Biology in January 2001. Dr. Krane has secured significant and ongoing funding from the National Science Foundation, the National Institutes of Health and the American Lung Association for her work on aquaporins, membrane proteins that control the water content of cells.

Dr. Krane has mentored scores of students and contributed to a number of industry-sponsored interdisciplinary research contracts and multidisciplinary teaching efforts. She received the College's award for outstanding teaching in 2008 and the George B. Noland Award for Research in 2014 (given by UD's chapter of Sigma Xi), and she has been formally recognized by the American Physiological Society for her service as a research mentor to undergraduate student summer research fellows.

Outside the classroom and lab, Dr. Krane has brought significant leadership to a number of settings. She is currently serving a second term as president of the academic senate and has also served as associate director of the University Honors Program, where she supervised honors thesis research and developed the Berry Summer Thesis Institute. She is currently in the second year of a three-year term of national service on the American Physiological Society's education committee.

## Outstanding Teaching Award: Dr. Donna Cox

**Dr. Donna Cox**, professor of music, is a choral conductor by training. Since her arrival at the University in 1990, Dr. Cox has directed three choirs which have become important contributors to campus life: Ebony Heritage Singers, Celebration Vocal Transit and Choral Union.

She is best known for directing the Ebony Heritage Singers, a choir which propagates the sacred choral singing tradition of the African-American community. The choir has as its mission to serve as an unofficial ambassador for racial reconciliation. The standing room-only audiences who attend — and sing and dance with — the choir’s numerous performances are a testament to how well the choir is achieving this goal. It is to Dr. Cox’s great credit that the Ebony Heritage Singers include students of many diverse backgrounds; indeed, the ethnic diversity shown in the faces of these singers is visible proof that Dr. Cox creates a welcoming and inclusive community.

Her teaching responsibilities have included a range of courses including MUS 201 (Music in Concert), MUS 203 (Sights and Sounds of Music), MUS 305 (African-American Sacred Music) and MUS 352 (Understanding Sacred Music and Worship in the Local Church). She has pursued a collegial and collaborative approach that has included inviting other faculty to assist with experiential class activities such as African drumming, Javanese gamelan playing and experimenting with a variety of orchestral and band instruments as part of the instrument “petting zoo” featured at previous Stander Symposiums.

Over the years, many students have commented on the impact of Dr. Cox’s teaching. One student said, “Dr. Cox took me with my poor rhythmic skills and spent the time and energy helping me to learn skills that I now use every day of my adult life.” Another commented, “Dr. Cox did not stop teaching when class was over. In fact, Dr. Cox started teaching when the class was over, just in a different way. Teaching is not just her profession, but her vocation — a life of instilling value in the hearts and minds of young and not-so-young people. While her knowledge and delivery of educational topics is top-notch, it is her tireless spirit that pushes many of us beyond our comfort zones so that we can truly learn. I am only one of countless people that have been graced to know and be taught by her.”

Dr. Cox has organized and presented a number of symposia on topics focusing on African-American composers, African-American women composers, spiritual composers and gospel music. The Gospel Music Workshop lasts for an entire weekend and has been convened numerous times. All of these symposia have been well-attended by students, working musicians and educators, and community members from across the country. Importantly, each of these events has served to enrich the education of undergraduates, because they afforded students the opportunity to work alongside experienced professionals.

For her high-impact work with students, Dr. Donna Cox is the 2014 recipient of the College of Arts and Sciences Outstanding Teaching Award. We express appreciation to Dr. Cox for such strong commitment to students.

## Outstanding Service Award: Dr. Sharon Davis Gratto

**Dr. Sharon Gratto** joined the University of Dayton faculty in July 2008 as chair of the Department of Music and immediately began to impact the community through a remarkable range of service to the department, the University, the local community and the profession. It would be impossible in this space to recount all the vast service she has provided, so we highlight just a few of the ways she has contributed.

On campus, Dr. Gratto's service consists of a plethora of committees and other formal service activities. She has served on the Dean's Global and Intercultural Initiatives Advisory Committee and has supported faculty participation in the Global Education Seminar. She has been an active member of the College's Arts Leadership Group since 2009, and she has been instrumental in the success of the annual Celebration of the Arts since her arrival at UD. Dr. Gratto has chaired the search committee for the current Graul Chair in Arts and Languages, served on the search committee for the dean of the College of Arts and Sciences and represented the arts twice on the CAS Dean's Executive Council.

Dr. Gratto's contributions have gone far beyond the type of service work needed to help the University conduct its business. She has contributed in ways that reach far beyond UD by volunteering her time and talent to her profession of music education, with a special focus on multicultural and choral music education. She established UD's World Music Choir, which has performed at Culture Fest, the International Festival, the Martin Luther King Breakfast and the annual Kristallnacht observances. She served for six years as national repertoire and standards chair for ethnic and multicultural perspectives for the American Choral Directors Association. In 2014, Dr. Gratto served as guest editor for a special issue of the American Choral Directors Association's publication, *Choral Journal*, which focused on multicultural choral music. Dr. Gratto also served as editor of the Ohio Choral Directors Association's newsletter for three years.

Dr. Gratto's service to the local community has done much to advance collaboration and partnerships in the arts within the greater Dayton area. She serves on the board of directors for the Dayton Contemporary Dance Company, and she was a founding trustee of the Dayton Performing Arts Alliance. Prior to that, she was a member of the board of trustees for the Dayton Opera, and she served on the education committee for the Dayton Philharmonic Orchestra. She has been an adjudicator for the Opera Guild of Dayton's high school opera competition and taught musicianship classes for three years in the Dayton Philharmonic Orchestra's El Sistema-sponsored Q the Music string program at Ruskin Elementary School in Dayton. She also volunteers with her music education students as a music teacher for a local preschool.

What is most important about Dr. Gratto's service has been not just the quantity, but the attitude with which she has done it. She combines a remarkable record of creative activity with humble sacrifice directed toward the benefit of others. She has respect for the dignity of all persons, and she gives of herself willingly, with an "inexhaustible supply of energy and passion," always keeping at the forefront of her mind the education of our students and the betterment of the greater Dayton community.

For her passionate and tireless service to the department, the University, the Dayton community and her profession, Dr. Sharon Davis Gratto is the 2014 recipient of the award for outstanding service in the College of Arts and Sciences. We express appreciation to Dr. Gratto for such important contributions.

**Outstanding Contribution by a Full-Time, Non-Tenure-Track Faculty Member Award: Melissa Layman-Guadalupe**

**Dr. Guadalupe** has been a member of the Department of Psychology for 15 years, serving initially as a part-time instructor and transitioning to full-time instructor in 2008. In 2011, she took on responsibility as primary contact for all first-year psychology majors. In this important role, she serves as adviser for over 70 students each semester, and she teaches introductory psychology and its associated ASI 150 section.

Dr. Guadalupe contributes to the department's curriculum with great flexibility, teaching a wide range of courses. At the undergraduate level, she has taught PSY 101 (Introductory Psychology), PSY 251 (Human Growth & Development), PSY 351 (Child Psychology), PSY 355 (Developmental Psychopathology), PSY 363 (Abnormal Psychology) and SSC 200 (Social Science Integrated). At the graduate level, she has taught PSY 551 (Assessment of Intelligence), PSY 573 (Developmental Psychology) and PSY 555 (Theories of Personality & Psychotherapy).

Dr. Guadalupe has published widely on sexual assault and its prevention. She is currently studying Internet self-disclosure and online risk awareness, a project that has involved numerous undergraduate research assistants. In addition, she has chaired a number of undergraduate honors theses and independent studies, and has been a reader for several master's theses. This latest project has led to a number of undergraduate research and honors theses, as well as independent studies.

Peers recognize Dr. Guadalupe for her exceptional instructional abilities. Her student evaluation scores are among the highest in the department, and students describe her as a "warm, caring, enthusiastic instructor." One senior psychology major remarked, "Whenever someone asks me what my favorite class has been, I think to my first semester at UD. Psychology 101. Why? Dr. Guadalupe. She makes learning a relationship, not a PowerPoint slide..." Students also appreciate her work with them as adviser. Said one advisee, "She wanted to make sure I wasn't taking classes to fill a requirement, but to fuel an interest. Dr. Guadalupe is the professor who makes me proud of being a psychology major and inspires me to become a professor myself."

Faculty are effusive in their praise of Dr. Guadalupe. Department chair Dr. Keri Brown Kirschman describes Dr. Guadalupe as "a true gem." Another colleague refers to her as "an unbelievable asset" for the department and its students. Faculty peers respect Dr. Guadalupe, who gives generously of her time and energy on projects that are often important but not highly visible — work like supervising undergraduate honors theses, serving on graduate thesis committees or just having lunch with new faculty who seek her teaching advice.

For her tireless commitment and high-quality contributions across such a wide range of activities, Dr. Guadalupe is the 2014 recipient of the College of Arts and Sciences Award for Outstanding Contribution by a Full-Time, Non-Tenure-Track Faculty Member. We express appreciation for her excellence in teaching, research and service.
