

# CMM 498 INTERNSHIP LEARNING AGREEMENT

## AGREEMENT PURPOSE

The CMM 498 Communication *Internship Learning Agreement* serves these purposes:

- to provide structure to the internship experience;
- to remind all education partners of the purpose and activities of the internship; and
- to provide a basis for evaluation and validation of the student's learning experience.

## INTERNSHIP PURPOSE

Internship environments and activities vary in communication fields, and different students will have different learning needs and opportunities. Generally, employers and interns should aim for:

- professional experiences that test the applicability of the student's classroom learning to workplace practice;
- assignments that help the student gain new knowledge in the field and develop new professional skills;
- opportunities in which the student can meaningfully contribute to the workplace and community; and
- workplace supervision and mentorship that will help the student grow and identify areas for future academic and professional development.
