Interview Advice:

Do you have any advice, comments or suggestions we could pass along to students?

Advise them to go into details in the answers and give specifics.

Come prepared to Career Fairs. Do more research on companies you plan on speaking with.

Overall, they did well.

Dress for success.

Several students had incredible eye contact. Several of the students had lousy eye contact. In fact, you did not know if they were listening or not. However, I am sure they were nervous—but something I observed the most.

The more internships they can do the better. They seem to be more well-rounded and already can offer some relevant work experience and knowledge.
