TIME MANAGEMENT & PERSONAL PRODUCTIVITY

As leaders advance in the organization, one of the things they quickly realize is the way they manage their time is in direct correlation with how successful they, along with their team, will perform. While this is easier said than done, many times individuals that have performed at a high level struggle in transitioning to an advanced position in which they must delegate tasks, prioritize critical initiatives and effectively manage relationships.

Learning how to invest your time wisely is a critical skill in the workplace, but it is one in which we do not spend a great deal of time trying to learn or master. How you do it, when you do it and why you do it can play a big role in how effective you are as a leader. This program will answer those questions and give you tactics that can be applied when you return to your organization. Participants will be exposed to some valuable tools that will help create an immediate impact in time management and personal productivity.

THIS PROGRAM WILL HELP LEADERS:

- Plan your work using goal-setting and scheduling techniques.
- Use proper delegation techniques while avoiding common pitfalls.
- Build successful relationships without allowing others to put too many demands on your schedule.
