EFFECTIVE DECISION MAKING

When was the last time you or your team sat down and evaluated the lessons learned from either a great decision or a bad decision? Managers, employees and teams are constantly making and implementing decisions, but few examine the process and assess the quality of their decisions. In today's business environment, the impact of a poorly made decision can be costly. On the other hand, a great decision can produce results that will move an organization forward. This one-day seminar gives participants the process and tools for making effective decisions.

This seminar utilizes group exercises, movie clips, real-world examples and a team case study to help participants analyze and improve their decision making skills.

THIS PROGRAM WILL HELP LEADERS:

- Learn four distinct styles of decision making and when to apply them.
- Learn to apply a proven six-step decision making model.
- Understand various tools that will aid in decision making.

Bob Jewell

Bob Jewell is the founder and CEO of the Omega Leadership Group. He has more than 25 years of experience at the executive level as a practicing manager, coach and leader. His responsibilities have included engineering, operations and business development. Jewell's extensive real-world experiences, combined with his strong communication, facilitation and presentations skills, create a dynamic and enjoyable learning environment.

Jewell holds a degree in engineering from The Ohio State University. His work in the areas of leadership development, project management, employee engagement and strategic planning has earned him the respect of clients such as Kroger, Toyota, General Electric, Fed Ex and Catholic Health Partners.
