## YOUR GLOBAL CLASSROOM.

**The University of Dayton China Institute (UDCI) is your global classroom**, just 75 miles from Shanghai in the ultramodern higher education district of Suzhou Industrial Park.

Home to a third of the world's Fortune 500 companies, Suzhou Industrial Park is a center of innovation and opportunity unlike any other.

As part of the learning experience, you may have the opportunity to interact and conduct hands-on projects with some of UD's partner companies in Suzhou Industrial Park, including Lilly Suzhou Pharmaceutical Co., Emerson Climate Technologies (Suzhou) Research and Development Co., Marian (Suzhou) Co. Ltd. and Crown Equipment (Suzhou) Co. Ltd., to name a few.

Guest speakers from multinational companies and professors from UD's partner universities will provide Chinese culture and society seminars on topics that range from how to do business in China to appreciating Chinese music, art and tai chi. You'll also spend time exploring the rich cultures of Shanghai, Suzhou, Nanjing and Beijing.

A 10-day visit to Chaminade University in Honolulu, Hawaii, will complete your classes and help to contrast Eastern and Western cultures, business and engineering.
