YOUR GLOBAL CLASSROOM

The University of Dayton China Institute is your global classroom, just 75 miles from Shanghai in the ultra-modern Suzhou Industrial Park.

Home to a third of the world's Fortune 500 companies, Suzhou Industrial Park is a center of innovation unlike any other.

You'll join teams of American, Chinese and international students to conduct hands-on projects with our partner companies. These include Lilly Suzhou Pharmaceutical Co., Emerson Climate Technologies (Suzhou) Research and Development Co., Marian (Suzhou) Co., Ltd. and Makino (China) Co., Ltd., to name a few.

Guest speakers from multinational companies will give special lectures. And professors from Nanjing University and other partner universities will provide Chinese culture and society seminars on topics that range from how to do business in China to appreciating Chinese music, art and tai chi.
