LEARNING DOESN'T JUST HAPPEN IN THE CLASSROOM

GET GLOBAL WITH YOUR EDUCATION.

The China Institute is just **75 miles from Shanghai in the ultramodern higher education district of Suzhou Industrial Park (SIP)**, an internationally competitive, 111-square-mile high-tech research and education park nestled in a modern urban development next to Jinji Lake.

Home to 25 universities from around the world and **a third of the world's Fortune 500 companies**, SIP is a center of innovation and opportunity like no other. As part of the learning experience, you'll interact and conduct hands-on projects with corporations like Emerson Climate Technologies, GE Aviation, Lilly Pharmaceutical, Marian and Delphi Electronics —to name just a few. These firms visit the China Institute and invite our students to their own offices — giving you an insider's look at business in China.

In addition to learning about and working with businesses, guest speakers from multinational companies and professors from UD's partner universities provide Chinese culture and society seminars on topics ranging from best business practices to appreciating the music and arts. You'll also spend time exploring the cultures of Shanghai, Suzhou, Nanjing, Beijing and other locations.
