The University of Dayton Lifelong Learning Institute (UDOLLI) is a community of enthusiastic adult learners who come together to further their interests in art, current events, health and fitness, history, literature, music, religion and science. We offer peer-lead seminars that not only teach and advance skills, but also bring people together.

We began 22 years ago as the University of Dayton Institute for Learning in Retirement or UDILR. Since 2004 we have been proud members of the Osher Lifelong Learning Network, a group of more than 100 institutes across the country dedicated to meeting the needs of adult learners over 50 years of age who wish to gather for the joy of learning and personal fulfillment.

OUR MISSION STATEMENT

The purpose of the Osher Lifelong Learning Institute at the University of Dayton is to offer adults 50 years or better a wide variety of seminars based on the peer-learning concept and designed to be intellectually stimulating in an informal and noncompetitive environment.

We are a vibrant community
We are adults with wide-ranging interests in art, current events, health and fitness, history, literature, music, religion and science. A curriculum committee works with the Executive Director of Special Programs and Continuing Education to select our curriculum on the basis of member requests, the expertise of moderators, variety and balance. Moderators include University of Dayton (UD) professors and community professionals who lead peer-to-peer informal lecture and discussion seminars that typically meet once a week for two hours, for four to eight weeks. The summer session is two one-day sessions.

Our seminars are noncredit
There are neither tests nor grades, nor educational requirements. Participation is essential, ranging from keeping up with assigned readings and contributing to seminar discussion to sharing the results of one's own research. A majority of the seminars are held in the 1700 South Patterson Building, others on the UD main campus with a few at off-site locations, such as the Boonshoft Museum of Discovery. The map on pages 22-23 identifies the location of River Campus and other UD buildings.

UDOLLI is a cooperative venture
We rely on the contributions and participation, both in seminars and out, of each member. Members assist the Executive Director of Special Programs and Continuing Education by moderating seminars, coordinating lecture series, leading small group discussions, organizing activities and volunteer projects. The also serve on the board of advisors and committees, act as seminar liaisons, help in the office and volunteer for all other tasks that keep us going.

Becoming a member of UDOLLI is easy
Registering for seminars is simple! Pages 33 and 34 give complete registration information and procedures. Once you register for a seminar, you automatically become a UDOLLI participating member for the current academic year. The term of membership conforms to the academic calendar, beginning in September and ending in June.

- Friends of the Institute donate $80 or more each year to support UDOLLI’s goals
- Life Members make a one-time donation of $2,000 or more
- Distinguished Service Life Members give UDOLLI extraordinary service
- Life and Distinguished Members may attend seminars at no cost.

We are part of the University of Dayton’s Special Programs and Continuing Education department, which is directed by Julie Mitchell and sponsors lifelong learning programs and professional development. Founded in 1994 as the University of Dayton Institute for Learning in Retirement, we have grown from the original 98 members to more than 2,000 members.

MONDAY SEMINARS

Staying Secure in an Online World
Learn how to keep your computer and all your connected devices safer and more secure while living in the Internet of Things (IoT) and our connected world. Your home security system, your thermostat, your refrigerator, your printer and more can all be connected to the web. We will discuss best practices, recommended software, and hardware that combines to lower the associated risks. This popular seminar has been presented before, but it is updated to reflect new threats and improved methods to mitigate those threats. We will keep the technical details to a minimum as we try to understand the online world we live in. Please bring your personal devices (phones, iPads, tablets and others) to better understand how to best manage them.

6 Mondays, January 23 – February 27
9:30–11:30 a.m. at River Campus

Bob Sherman worked in software development at NCR for more than 20 years and has recently retired (again!) after a 16-year career at Sinclair. He has been an Associate Professor and Chair of the Computer Information Systems Department and helped secure Sinclair's designation as a Center of Academic Excellence in Information Assurance Education (CAE2Y) from the National Security Agency (NSA). He has degrees from UD and Miami and has done additional graduate work at the Air Force Institute of Technology (AFIT).

Legacy Writing NEW

Each week we will write to a prompt, or two, and share and respond to those writings. We will also work together over the course of the seminar to write and revise at least one story for your legacy. Come prepared to write, learn craft, and give feedback in each session. Some writing outside of class may be required to complete your story.

Participants need not be “photographers” to take this personal seminar that uses an integrative approach to creating personal imagery and exploring your unique spirit using your lens. Shoot with a camera, phone or tablet, and come, shoot with your heart!

In this experiential seminar, we cultivate making photographic images that are authentically our own. We will look at works of well-known photographers, reflect on our own imagery, inclinations and iconography, and consider how we can create images that express our personal vision, tap our spiritual sensibility, and touch others.

We will consider our role and purpose in making photographs. With the help of insights from such luminaries as Thomas Merton, Susan Sontag, Saint Augustine, Annie Liebowitz, Joseph Campbell, Dorothea Lange, Freeman Patterson, Sylvia Plachy and Margaret Atwood, we will explore the views of photographers, scholars, religious writers and seminar participants regarding choice, vision, meaning, personal identity and full presence.
Each seminar participant will independently make new photographs to share with fellow participants. Photography style and subject matter are the choice of each individual.

The moderator will offer a weekly selection of photography-specific exercises in mindfulness, reflection and contemplative engagement for participants to experiment with.

**Required:**
1. Independently use your choice of camera or camera-in-phone/in-tablet.

Glimpses of the Civil War

Glimpses of the Civil War is a seminar that Rick Carlile has been moderating at UDOLLI for more than 10 years, with additions and modifications from time to time. It is impossible to cover the entire Civil War in 12 hours, so Carlile has picked topics of the Civil War which he believes would be most interesting to our students. These topics include: (1) general background; (2) military campaigns; (3) Gettysburg campaign; (4) Ohio in the Civil War; (5) potpourri of various topics; and (6) photography in the Civil War and visual tour of the Dayton Soldiers Home.

6 Tuesdays, January 17 – February 21
3–5 p.m. at River Campus

Rick Carlile is a retired attorney. He has been a student of Civil War history and a collector of Civil War artifacts and photography for more than 40 years. Carlile received a BBA from Ohio University and a J.D. degree from the University of Michigan Law School. He has written articles for various magazines and has provided copies of the Civil War images in his collection for publication in numerous books and magazines, along with providing copies to various museums. Copies of Carlile’s photographs also appeared in Ken Burns’ landmark TV miniseries on the Civil War.

Rolling Sculpture: Explorations in Automotive Industrial Design  NEW

It can be argued that the automobile is the most important design icon of the 20th century. Indeed the radical evolution of body styles owes much to the technological and social changes that have occurred over the last hundred years. Importantly, the motorcar as form has attracted the attention of many of the 20th century’s greatest industrial designers—literally, artists working in metal, glass and textiles.

What makes for a design classic? Is it just a matter of taste or do some car design elements stand the test of time? Pointedly, we will ask the question and listen for seminar participant’s reaction to the question: “What makes for a beautiful automobile, one that, when you walk by, you turn with a smile and take a second glance?”

Together we will explore the work of more than two dozen internationally regarded designers, individuals who have created some of the most powerful expressions in the integration of art and science, all culminating in a host of memorable and distinctive automobiles. We will briefly look at the design process itself, from the earlier clay modeling approach to today’s digital high-tech techniques and the use of focus groups. Finally we will look at the emergent influence of women designers in what was, earlier, largely a male domain.

How Britain Lost Her American Colonies   NEW
Most of our exposure to history of the American Revolution has concentrated on events within the original thirteen colonies and on the exploits of American leaders. This seminar will also provide the view from the other side of the Atlantic. It will introduce you to men of whom you may have never heard, who guided the British effort to regain the colonies. Despite the façade of British power, you will find that these men were hampered by an arrogant belief in British military superiority, an army that was too small, a navy that wasn’t ready and an almost impossible logistics and communication problem.

In this class we’ll use Cooke’s Letters as an lens for viewing late 20th century American history. Come join us as we cut a swath through the jungle of long-lost hits, such as “Teen Angel” from 1960 through “96 Tears” from 1966, to “Spirit In the Sky” from 1969 - we’re going to try to play 100 tunes! This is intended as a sing along class, and with lyrics screened for each tune, needed or not. Come croak along with us; we’ll keep the volume cranked up.

A History of Hell
Where did hell, or the idea of hell, come from? In this seminar, we will focus on the concept of hell as it developed in Judaism and Christianity. Beginning with what the Hebrews called “Sheol,” “the Pit” or “the Grave,” we will chart the path it took to become a place of punishment, and then a place of eternal torment. We will look at relevant passages in the Hebrew and Christian Scriptures, and we will note how the development of hell went hand-in-hand with the development of the concept of Satan, a.k.a. the Adversary, the Tempter, the Ruler of the Underworld.

We will also take into account some 20th and 21st century views challenging the traditional imagery found in Christian literature, mosaic scenes and paintings decorating medieval churches and the Sistine Chapel. Why do believers want hell to be real? Do people want to be threatened by the prospect of everlasting torture in order to be “good,” in order to do those acts that “please God”? We will have a lot to discuss in terms of how we were taught the catechism, who taught religion classes, and what kind of input came from our parents, ministers, priests and teachers. We will discuss how the idea of hell impacted us and other people we have known.

Perhaps some of us will conclude that we need hell in order for justice to be done, and perhaps some of us will conclude that there is no hell, at least not like many people, popes, preachers, theologians, writers and artists have imagined it. And maybe, just maybe, purgatory will arrive on the scene to help us get it all straightened out!

This one day seminar will bring back the chairs to give a detailed analysis of the 2016 election covering the state and national races. Audience participation will be encouraged.

Open to all interested adult singers and requiring no audition, the Chorus sings a diverse repertoire of both sacred and secular choral literature, with an emphasis on American music. Founded in 2003 as the Schuster Center Celebration Choir, the organization was first sponsored by the Victoria Theatre Association. In 2014 the group affiliated with the University of Dayton Office of Special Programs and Continuing Education.

Our performance venues have included the Schuster Center for the Performing Arts, Courthouse Square Grand Illumination, Kroc Center, Dayton Art Institute, Victoria Theatre, The Greene, UD Arena, Fifth Third Field, and various churches and retirement communities. Chorus members have performed with the Dayton Philharmonic Orchestra’s Holiday Festival Community Chorus, the UD New Horizons Band, the Miami Valley Symphony, and various guest artists and conductors. DCC has been selected annually to sing the National Anthem for the Dayton Dragons at Fifth Third Field.

Thank you so much. Your gifts are critical to our success.
Remember these helpful tips and important facts as you register.

- The $80 registration fee per session entitles you to select as many seminars during that session as you wish.
- Payment is due when you register. Your confirmation letter serves as your receipt.
- Participants are enrolled in the order that registrations are received.
- You can register for UDOLL! seminars by online, mail, or phone. In an attempt to provide equal registration opportunities for all participants, hand deliveries/walk-in registrations and email requests will not be accepted.
- After registering, the confirmation packet containing your seminar registration, parking information and instructions on how to obtain a parking permit will be mailed to you.
- Seminars may be cancelled if fewer than 10 people are registered. You will be notified should that occur.
- Once a seminar reaches its specified “seminar limit,” you will be wait-listed and notified if an opening occurs.
- If you cannot attend the first day of your seminar, please let us know by calling 937-229-2347. Otherwise, you may be dropped from the seminar.

About refunds. To receive a refund of your $80 registration fee, please notify Special Programs and Continuing Education, 937-229-2347, by January 10, 2017. After that date, refunds are not given; however, substitution of participants is always acceptable.

Parking permits. There is a fee of $30 for each parking permit.

You are welcome to park anywhere off campus. If you choose to park on university grounds and campus, UD requires a valid university parking permit. This also includes handicapped-designated spaces. During registration, you can request a permit to park on campus.

The R1 permit is also valid on the main campus, 7:30 p.m. – 6:30 a.m. on weekdays, and open parking (without a permit) is allowed on weekends.

To obtain a parking permit, simply indicate your parking needs by checking the appropriate box on the registration page. Your confirmation letter will include instructions on how to receive your permit.

Once you receive it, please keep your permit in a safe place for use during the term. Remember to display it properly from the rearview mirror. Lost or stolen permits as well as parking citations are the responsibility of the member. Replacement permits cost $30 per person, per permit.

What if my seminar is held off site? Some of our seminars are at other locations around the community. If this is the case, you are responsible for transportation to and from the seminar. For these seminars, a UD parking permit is not required.

If you wish to ride the RTA. Just contact the RTA RideLine at 937-425-8300, and they will give you schedule, route and senior discount information.

CONNECTING GENERATIONS & CULTURES

A UDOLLI Program
With age comes wisdom and experience that can be priceless when shared with others

The UDOLLI Connecting Generations & Cultures program connects UDOLLI to the Dayton area community and the community to our vibrant, highly educated, experienced and talented members. The diverse backgrounds of our members is just one of the reasons that makes this program valuable and successful. Our membership consists of thousands of professionals in numerous disciplines with decades of experience and knowledge that is waiting to be shared.

Connecting Generations & Cultures is a “Talent Bank” for community organizations. UDOLLI puts your talents to work by connecting you to organizations to help them carryout their mission. Under this program UDOLLI has been reaching out to various community groups and letting them know that we have members eager to share their years of experience with them.

We want to connect to any organization in the Dayton area that meets any one of these criteria: is it educational, cultural, civic, social, governmental, inter-generational–can our members, and the organization’s members contribute to, and benefit from the connection?

Your connection could be for a single project or an ongoing program. You could be involved in initial planning or working with community members on a regular basis to carry on their mission. There may be several of you involved in the same activity, or it might be just you. Whatever project or organization you get involved with you will meet new friends and perhaps build life-long relationships. You may even find that a connection can be life changing.

Infinite Number of Connection Possibilities
1. Share your ideas during a creative planning session
2. Work with the Dayton Foundation’s Encore program to solve community problems
3. Mentor or tutor a high school or college student in areas of your education and experience
4. Shared your life and work experiences with a group of high school or college students
5. Participate in a university research project
6. Connect with UD’s international students and share American culture while learning about theirs
7. Help an international student improve their English language skills through conversation
8. Learn about another culture by getting involved with a local international organization
9. Facilitate a planning or problem solving session for a community group that needs assistance
10. Participate in an intergenerational discussion group on a specific social, political, or cultural topic.

Here’s How To Connect
Just stop by the office and complete a simple information/contact form providing basic career experience and interests. We will try and connect you to an organization(s) that could use your talents. Let us know of any organizations you feel would make a good connection with our program.

NOTE: The Connecting Generations & Cultures program does not include delivering UDOLLI seminars to organizations off-site, or bringing ineligible members to our regular seminars on the River Campus. This program does not change nor is it in conflict with our fall, winter, spring, and summer term seminars.
