The University of Dayton Lifelong Learning Institute (UDLLI) began 21 years ago as the University of Dayton Institute for Learning in Retirement or UDILR. Since 2004 we have been a proud member of the Osher Lifelong Learning Network, a group of more than 100 institutes across the country dedicated to meeting the needs of adult learners over 50 years of age who wish to gather for the joy of learning and personal fulfillment.

OUR MISSION STATEMENT

The purpose of the Osher Lifelong Learning Institute at the University of Dayton is to offer adults 50 years or better a wide variety of seminars based on the peer-learning concept and designed to be intellectually stimulating in an informal and noncompetitive environment.

We are a community
We are adults with wide-ranging interests in art, current events, health and fitness, history, literature, music, religion and science. A curriculum committee works with the director of the Office of Special Programs and Continuing Education to select our curriculum on the basis of member requests, the expertise of moderators, variety and balance. Moderators include University of Dayton (UD) professors and community professionals who lead peer-to-peer informal lecture and discussion seminars that meet once a week for two hours, for four to eight weeks. The summer session is two one-day sessions.

Our seminars are noncredit
There are neither tests nor grades, nor educational requirements. Participation is essential, ranging from keeping up with assigned readings and contributing to seminar discussion to sharing the results of one’s own research. A majority of the seminars are held in the 1700 South Patterson Building and others on the UD main campus, with a few at off-site locations such as the Boonshoft Museum of Discovery. The map on pages 26-27 identifies the location of River Campus and other UD buildings.

UDLLI is a cooperative venture
We rely on the contributions and participation, both in seminars and out, of each member. Members assist the director of the Office of Special Programs and Continuing Education by moderating seminars, coordinating lecture series, leading small group discussions, organizing activities and volunteer projects, serving on the board of advisors and committees, acting as seminar liaisons, helping in the office and volunteering for all other tasks that keep us going.

Becoming a member of UDLLI is easy
Registering for seminars is simple and convenient. Pages 50 and 51 give complete registration information and procedures. Once you register for a seminar, you automatically become a UDLLI participating member for the current academic year. The term of membership conforms to the academic calendar, beginning in September and ending in June.

Friends of the Institute are individuals donating $80 or more each year to support UDLLI’s goals; Life Members are individuals making a one-time donation of $2,000 or more; and Distinguished Service Life Members are individuals giving UDLLI extraordinary service. Life and Distinguished Members may attend seminars at no cost.

We are part of the University of Dayton’s Office of Special Programs and Continuing Education which is directed by Julie Mitchell and sponsors lifelong learning programs and professional development. Founded in 1994 as the University of Dayton Institute for Learning in Retirement, we have grown from the original 98 members to more than 2,000 members.
Members’ benefits
As a UDLLI member, you are invited to participate in UDLLI activities and related continuing education-sponsored events such as the Duane W. Chapman Senior Symposium, Senior Fellows graduate/undergraduate audit program, New Horizons Music, Road Scholar (the Elderhostel Institute Network) and University programs. Page 45 gives more information about these programs.

As a UD community member, you are invited to participate in UD-sponsored activities such as lectures, recitals, and art and cultural events, and enjoy campus privileges such as use of the faculty, staff and graduate student Barrett Dining Room, Roesch Library and the RecPlex (membership fee required). You’re welcome to shop at the UD Bookstore and eat at the campus coffee bars or ArtStreet Café. For identification, you’ll use your name badge received upon registering for your first seminar.

You may qualify for a grant
If you meet certain financial criteria, you may qualify for a UDLLI grant entitling you to enjoy all UDLLI member benefits and attend seminars at no cost or a reduced cost. Call the Office of Special Programs and Continuing Education at 937-229-2605 or 937-229-2347 for additional information.

Parking and RTA
During registration, you may request a permit to park on campus. If you need a parking permit, please select the appropriate boxes to indicate your parking needs. The fee is $30 per parking permit. If you have special parking needs, the Office of Special Programs and Continuing Education will provide assistance. If you wish to ride the RTA, call RTA customer service at 937-425-8300 for schedule and senior discount information.

Are you interested in moderating a seminar?
UDLLI is grateful to its volunteer moderators who share their knowledge and provide a comprehensive curriculum. Moderators become Friends of the Institute for the academic year in which they teach. They and their spouses can enjoy member benefits and may attend seminars during the year at no cost. If you are interested in learning more about becoming a moderator, UDLLI would be happy to talk with you. Call the Office of Special Programs and Continuing Education at 937-229-2605 or 937-229-2347 for more information.

Here Comes the Reign Again: The Second British Invasion  NEW

The term “Second British Invasion” refers to music acts from the United Kingdom that became popular in the United States from approximately the summer of 1982 into the autumn of 1986, primarily due to the cable music channel MTV. While acts with a wide variety of styles were part of the invasion, it was mainly synthpop and new wave-influenced acts that predominated. An example of the invasion’s influence on pop music is that on July 16, 1983, 20 of the top 40 singles were by British artists, smashing the previous record of 14 set in 1965 during the First British Invasion.

Now in retirement, the Osher Lifelong Learning Institute has become an important part of their education.

Kant’s Ethics Extended to Nature  NEW

After an introduction to the seminar, the first session covers three perspectives and theories on environmental ethics. The second seminar session covers Kant’s ethics as the lens through which we view human-centered environmental problems, e.g., health and human survival. The third seminar session extends Kant to animals who are like us, e.g., the ethics of domestic animals. Given scientific research in seminar session four, we change perspective to a life-centered viewpoint, where respect for life includes organisms and species. The fifth seminar session changes perspective to earth-centered, where we look at the ethics of ecosystems. In the sixth seminar session, we discuss the earth as a whole. As earthlings, our home — “our garden” — becomes an ecological biosphere. We always encourage class discussion!

6 Mondays, September 14 – October 19

Seminar limit: 40

Zentangle: Relax, Focus and Create!
Zentangle is a meditative art form not to be confused with doodling! By focusing on patterns (called tangles) one stroke at a time, each student will create unique small works of art while achieving a sense of peace through the process. This seminar is especially beneficial for those of us who always wanted to draw but thought they couldn't do it! This seminar is for those who have never taken a Zentangle seminar in the past.

6 Mondays, September 14 – October 19
12:30–2:30 p.m. at River Campus
Seminar Limit: 20

Required supplies: Kits will be provided by the moderator for $10 per student.

Peg Farmer is a certified Zentangle teacher. She was a frustrated art enthusiast who finally found her niche through Zentangle and is eager to share it. She has been involved with UDLLI as a student and seminar liaison since 2004. Her work experience was in social service, public and private administration.

In addition to discussion, each seminar will feature a segment of a movie version of the work under consideration that day.

Seminar limit: 35

Required texts: Oscar Wilde, An Ideal Husband; George Bernard Shaw, Heartbreak House; Sean O’Casey, Juno and the Paycock; Tom Stoppard, Rosencrantz and Guildenstern Are Dead; Harold Pinter, The Homecoming; Brian Friel, Dancing at Lughnasa. She has moderated many seminars in Shakespeare for UDLLI. Recently she taught 20th century drama, the most recent seminar being 20th Century Plays 2: American.

Crime Scene Investigations: Presentation, Preservation, Processing and Prosecution
This seminar will examine the many facets of a “crime scene,” the place or places where a crime has been committed, or is believed to have been committed. The seminar will explain the stages of crime scene management from initial response of law enforcement to completion of processing and evidence collection. The seminar will feature presentations highlighting the importance of crime scenes in successfully solving “cold case” investigations, as well as more recent investigations. The seminar will also feature presentations from law enforcement and crime laboratory and medical professionals.
Caution: This seminar will include information and photographs, both actual and clinical, which are graphic in nature. While this is not the focus of the seminar it is an important element of understanding the scientific and investigative nexus to the crime scene.

6 Mondays, September 14 – October 19
12:30–2:30 p.m. at River Campus

Jeffrey W. Mitchell is the chief of police for the city of Lebanon, Ohio, a nationally accredited law enforcement agency. He is a graduate of the Police Executive Leadership College, Northwestern University School of Police Staff and Command, and the Certified Law Enforcement Executive program. Chief Mitchell is an adjunct instructor at the Ohio Peace Officer Training Academy in London, Ohio.

Two Bildungsromans NEW
This seminar will give an enriching glimpse into what a Bildungsroman (coming-of-age story) can reveal. A male perspective will be represented by the Nick Adams short stories of Ernest Hemingway's In Our Time. And then we'll get a female perspective through the myopic eyes of the protagonist Marie Commeord in Alice McDermott's novel Someone. These two works will deliver thoughtful insights into what engenders the move from innocence to awareness — sometimes extraordinary events, sometimes quite ordinary ones. Along the way, we will meet some unforgettable characters and review some highlights in history.

6 Mondays, September 14 – October 19
3–5 p.m. at River Campus

Recommended texts: Both in paperback. From online bookseller AbeBooks, used but good copies of Hemingway's In Our Time and McDermott's Someone are available for as low as $3.48, often with free shipping. Also available for Kindle. Both should be readily had through amazon.com or Books & Co. as well.

Joe Pici has been teaching literature and writing at UD for 50 years. Anne Pici retired after 30 years of teaching writing at UD and now enjoys freelance editing.

Behind the Scenes of UD Athletics
This six-week seminar will entail a comprehensive focus of University of Dayton athletics, including the challenges that we face in intercollegiate athletics, the student-athlete experience, staying compliant, the role of our coaches and academic support, along with social media and technology.

6 Mondays, September 14 – October 19
3–5 p.m. at River Campus

Angie Russell is a Division I women's basketball coach with six years of experience, including three years at UD. She currently serves as assistant athletics director and holds a master's degree in athletic administration and a bachelor's degree in communication.
Let’s Explore Ireland – Primarily the Republic
This seminar will have pictures of active castles, ruins, significant monastic sites, cathedrals and churches, land formations, livestock and people. It will incorporate some “travel sessions” from other sources. There will be time during each session for questions and comments about travel, B&Bs versus hotels and other information regarding guide books and maps.

6 Mondays, September 14 – October 19
3-5 p.m. at River Campus

Dr. Tom Connair is a retired veterinarian. He is a UD Golden Flyer and has Bachelor of Science and Doctor of Divinity degrees from The Ohio State University. He has been to Ireland seven times and has toured most of the Republic of Ireland but very little of the North.

Film Noir 2: Dangerous Dames    NEW
I knew she was dangerous when she walked into my office. She had hair like midnight and lips like Rudolph's nose. She was dynamite on two long legs and she knew it. Many films noir have femme fatales who bring about the hero's downfall. Meet six of them in these exciting B-movie thrillers. We'll focus on films that you probably haven't seen, discuss the cast and crew, talk about what makes a film noir, and learn a little about how movies are made. In our first film, The Killers, we'll watch Ava Gardner lure Burt Lancaster to his inevitable doom.

Caution: Most seminars will run about 10 minutes over our allotted time. Also, so as not to disrupt the flow of the film, there will be no scheduled breaks. Leave when you must!

6 Mondays, September 14 – October 19
3–5 p.m. at River Campus

Fred Oliver is a retired Wright-Patterson Air Force Base engineer and a noir fan since discovering Turner Classic Movies almost two decades ago. He’s been a UDLLI student for the last five years. **The History of Cultural Marxism and the Origins of “Political Correctness” New**

Feel like you are no longer free to speak your mind for fear of offending someone? Did you know modern “political correctness” began in Europe before WWI?

This seminar is a study of the Frankfurt School of 1920s Germany and its profound effect on current American society. Discussions will center on the cultural changes designed by Marxist thinkers Theodor Adorno, Herbert Marcuse and Saul Alinsky. Promotion of educational and environmental controls, rise of big government, and encouragement of class and racial divisions will be detailed along with writings attacking free market capitalism, marriage, family, religion, the Constitution and simple patriotism.

Be prepared for lively discussions and debate. We will also examine the importance of the media in the employment of Critical Theory as explained by Max Horkheimer, which has led to the surge of “political correctness,” heretofore unfashionable in “free speech America.”

The Dayton Soldiers Home  NEW
History is coming alive at the Dayton VA Center. Being well-educated does not exclude one from being targeted by criminals who make a career out of elder fraud.

Consultations were held with many agencies, local, state and national, to investigate resources available for seniors seeking to avoid victimization. Join this seminar for the
latest updates covering topics such as credit card security, online security, health care fraud, securities and investment fraud and others.

Natural Burial: The Sustainable Alternative for Catholics   New

Natural burial is the ultimate way to return to the earth upon death. The Catholic Church teaches us that our bodies (or the cremated remains) are best kept in an appropriately reverent vessel when interred. Natural burial in a beautiful biodegradable casket, shroud or urn allows us to keep the faith liturgy promise while rendering the immediate release back to the earth many desire.

In this seminar you will learn:

- The definition of a natural burial, a modern approach to an ancient practice.
- How choosing this alternative is good for the environment.
- What you need to know about the differences in planning a Mass of Christian Burial.
- What a graveside service in the St. Kateri Preserve for Natural Burial can look like.
- The specifics about choices to make in preplanning this type of final disposition of the body with a funeral home.
- What biodegradable caskets, shrouds and urns look like.
- How native plants, trees and wildflowers decorate the grounds and what you can add to them.
- What opportunities there are to memorialize a loved one with an engraved stone.
- You’ll also hear the story of St. Kateri, first Native American saint and patron saint of the environment.

Speakers Bureau

We welcome the opportunity to share our joy of lifelong learning with everyone. If you would like for someone to speak to your church, professional organization or club about the Osher Lifelong Learning Institute at the University of Dayton please contact Julie Mitchell at jmitchell1@udayton.edu.
Other Senior Programs at UD

**SENIOR FELLOWS**

If you are 60 years of age or better, you can become a UD Senior Fellow. Membership in the Senior Fellows program includes the privilege of attending any two classes for which you meet the prerequisite — graduate or undergraduate — each term on an audit basis. (Books and special fees are extra.)

**ROAD SCHOLAR (FORMERLY ELDERHOSTEL INSTITUTE NETWORK)**

Each summer, UD hosts people from throughout the United States and sometimes Canada. They come to Dayton to live on campus for one week and experience the Road Scholar program at UD. Road Scholar is an educational program for senior adults who want to continue to expand their horizons and develop new interests.

**NEW HORIZONS MUSIC**

Learn to play music in a band as a senior adult — even if you have no musical experience! Playing music is a special joy that will help you maintain mental and physical health. It is also a way of experiencing life — playing music from the past keeps us in touch with those feelings; daily practice keeps us active in the present; and striving for new goals attaches us to the future. One band member describes it as “serious fun.”

As a member of New Horizons Music, you will meet new friends and work with them as a team to learn music for concerts and other performances in the community.

New Horizons ensembles typically perform many times each year in venues ranging from formal concerts to shopping malls and from parks to retirement and nursing homes.

UD New Horizons Music offers adults 50 years of age or better the opportunity to begin a musical instrument and provides a re-entry point for those who have been away from active music making for many years. Instruments taught include: flute, oboe, bassoon, clarinet, saxophone, trumpet, French horn, trombone, baritone, tuba and percussion.

**DAYTON CELEBRATION CHORUS**

“Sing with — and FOR — your mind, body and soul!”

The Dayton Celebration Chorus is an adult community chorus that serves the city of Dayton and the Miami Valley region. There is no audition. Open to all interested adult singers, the chorus sings a diverse repertoire of both sacred and secular choral literature, with an emphasis on American music. Rehearsals are held on Tuesday evenings in several sessions throughout the year. The director is Dr. Linda J. Snyder, Professor Emerita of Music.

CONNECTING GENERATIONS & CULTURES

A UDLLI Program
A way to share your skills and expand your knowledge

Connecting Generations & Cultures is all about understanding other generations and cultures, learning from each other and creating positive outcomes while working together. The connection possibilities are endless!

The program connects UDLLI to the Dayton area community and the community to UDLLI's highly educated, experienced and talented members like you. With age comes wisdom and experience that can be priceless to others. This program is designed to let you make a difference and share your experience and talents where they can do the most good in the community.

Our program is envisioned as a clearinghouse to match community needs with the experience and brainstorming skills you already possess in a wide array of professions from management to parenting. Your connection could be for a single project or an ongoing program. There may be several of you involved in the same activity, or it might be just you. We will do our best to match your interests, enthusiasm and time to an organization's objectives. For example:

- Meet with high school students about career opportunities.
- Connect with UD's international students to share American culture while learning about their homelands.
- Use your professional talents to problem-solve with a civic, cultural or educational institution.
- Engage in discussion and planning sessions for organizations in need of guidance.

These are just a few ideas. Our program is open to any organization in the Dayton area. You may even have a suggestion for a group we can connect with. Our UDLLI seminars allow our moderators to impart their knowledge to you and now you can do the same for others in our community. Everyone has something to offer.

When we experimented with this concept our results were both exciting and gratifying. One of our members taught a class at a Dayton charter school called Communicating for Success, which dealt with issues on how to succeed in the workplace and in life. We conducted a discussion session with this same charter school using a Kettering Foundation/National Issues Forums Institute topic “Success in School.” The students and UDLLI member participants found it fun and educational. Everyone learned something new from one another and some attitudes were even changed. One of our members also provided professional facilitation services for a nonprofit group for organizational and strategic planning.

We learn not just in a classroom but also by connecting and by cooperating with other people to help solve problems and make things better than they are. The opportunities for connections and success are limitless.

For more information and to see how easy it is to get involved, contact our director, Julie Mitchell.

• If you are registered for seminars and circumstances prevent you from attending — either before the session begins or after the session has started — please call the Office of Special Programs and Continuing Education at 937-229-2347 to cancel your seminar registration.
• An early cancellation helps another member attend a seminar that has been closed out.
• Do not attend a seminar for which you have not registered because some seminars have participant limits or require text readings or materials.

SOME WORDS OF CAUTION

The views and opinions expressed in the UDLLI seminars are strictly those of the moderators and their guest speakers. Although an overview of the seminar and the moderator’s bio have been reviewed and approved by the Osher Lifelong Learning Institute at the University of Dayton, the entire contents of the seminars have not been reviewed and approved.

In addition, because the advice or information given by a moderator or guest speaker may not coincide with your own particular circumstances, we urge you to:

• Consult your broker or financial adviser before acting on implied or actual recommendations concerning the investment of your money.
• Consult your doctor before following any moderator’s or guest speaker’s suggestions pertaining to consumption of medically related products or other medical advice.
