WELCOME TO THE OSHER LIFELONG LEARNING INSTITUTE AT THE UNIVERSITY OF DAYTON

The Osher Lifelong Learning Institute (UDOLLI) began 29 years ago as the University of Dayton Institute for Learning in Retirement or UDILR. Since 2004, we have been proud members of the Osher Lifelong Learning Network, a group of 125 institutes across the country dedicated to meeting the needs of adult learners over 50 years of age who wish to gather for the joy of learning and personal fulfillment.

OUR MISSION STATEMENT

The purpose of the Osher Lifelong Learning Institute at the University of Dayton is to offer adults 50 years or better a wide variety of seminars based on the peer-learning concept and designed to be intellectually stimulating in an informal and noncompetitive environment.

We are a vibrant community

We are adults with wide-ranging interests in art, current events, health and fitness, history, literature, music, religion and science. A curriculum committee works with the Executive Director of Special Programs and Continuing Education to select our curriculum on the basis of member requests, the expertise of moderators, variety and balance. Moderators include University of Dayton (UD) professors and community professionals who lead peer-to-peer informal lecture and discussion seminars that typically meet once a week for two hours, for three to eight weeks.

Our seminars are noncredit

There are neither tests nor grades, nor educational requirements. Participation is essential, ranging from keeping up with assigned readings and contributing to seminar discussion to sharing the results of one's own research. A majority of our seminars are held on the University of Dayton River Campus in Daniel J. Curran Place, 1700 South Patterson; others are on the UD main campus with a few at off-site locations, such as the Boonshoft Museum of Discovery. The map on page 51 identifies the location of Daniel J. Curran Place and other UD buildings.

UDOLLI is a cooperative venture

We rely on the contributions and participation, both in seminars and out, of each member. Members assist the Executive Director of Special Programs and Continuing Education by moderating seminars, coordinating lecture series, leading small group discussions, organizing activities and volunteer projects, serving on the board of advisors and committees, acting as seminar liaisons, helping in the office and volunteering for all other tasks that keep us going.

Becoming a member of UDOLLI is easy

Registering for seminars is simple and convenient. Page 54 gives complete registration information and procedures. Once you register for a seminar, you automatically become a UDOLLI participating member for the current academic year. The term of membership conforms to the academic calendar, beginning in September and ending in June.

Friends of the Institute are individuals who donate \$80 or more each year to support UDOLLI's goals; Life Members are individuals making a one-time donation of \$2,000 or more; and Distinguished Service Life Members are individuals giving UDOLLI extraordinary service. Life and Distinguished Members may attend seminars at no cost.

We are part of the University of Dayton's Office of Special Programs and Continuing Education, which is directed by Julie Mitchell and sponsors lifelong learning and professional development programs. Founded in 1994 as the University of Dayton Institute for Learning in Retirement, we have grown from the original 98 members to more than 2,000 members.

Enjoy member benefits

As a UDOLLI member, you are invited to participate in UDOLLI activities and related continuing education-sponsored events such as the Duane W. Chapman Senior Symposium, Senior Fellows undergraduate audit program, New Horizons Music, Dayton Celebration Chorus and University programs. Page 46 gives more information about these programs.

As a UD community member, you are invited to participate in UD-sponsored activities such as lectures, recitals, and art and cultural events, and enjoy campus privileges such as Roesch Library and the RecPlex (membership fee required). You're welcome to shop at the UD bookstore and eat at the campus coffee bars or Riverview Cafe, Curran Place. For identification, you'll use your name badge received upon registering for your first seminar.

You may qualify for a grant

If you meet certain financial criteria, you may qualify for a UDOLLI grant, entitling you to enjoy all UDOLLI member benefits and attend seminars at no cost or a reduced cost. What's the Story? Your Ohio Neighbors Share Their War Memories

This seminar will focus on personal, first-hand accounts from WWII veterans of Ohio - where they came from, what life was like prior to the war, where did they serve, and where and when feasible, what happened to these men and women from the greatest generation after the war. All accounts presented in the timeline of the war, separated between European Theater and Pacific Theater. The narratives I have been told will touch all twenty-seven human emotions. As of November 15, 2023 there are only two of these courageous Americans from the book who are still with us.

Hometown Boy Makes Good: Revisiting Dayton Native and Comedy Legend Jonathan Winters

Blessed with what one critic called “one of the most gifted improvisational minds in existence,” Dayton native, Jonathan Winters, never relied on conventional jokes but instead commented on the foibles of everyday life in a skewed, exaggerated manner. Indeed, unlike many of today’s comedians, he refused to tell dirty jokes! Winters won scores of recognitions and honors and in 1999 he became only the second person to receive the Kennedy Center’s Mark Twain Prize for American Humor.

In this seminar we’ll have some fun exploring both the comedic and serious sides of this native son’s body of work on television, the stage, in the movies and through his often under-appreciated paintings and drawings. Just to be upfront, we’ll also address the unspoken and uneasy relationship between mental illness, comedy and art. As humans do we sometimes laugh to keep from crying? Is reveling in absurdity enough to keep us from going over the edge? Ah, only a few of the existential questions we’ll explore together.

Modern Physics in Our Daily Life *NEW*

The discovery of relativity and quantum mechanics (QM) in the beginning of the twenty century totally transformed human society. Our daily life today is heavily dependent on science-based systems and high-tech gadgets, such as GPS, fiber optics communication, lasers, cellular phones, medical imaging (MRI), nuclear energy, and space travel. All these amazing technologies were made possible by the discoveries of relativity and QM. In this seminar, we will describe the basic ideas behind these theories, examine what does it mean that time and distance are “relative”, can an electron be in two locations at the same time, what is quantum “entanglement”, and how certain findings in QM seems to defy our logic and common sense. We will provide some examples of modern industries that emerged, based on these foundational theories, such as semiconductor devices, medical imaging, astronomical observations, GPS, and the atomic clock.

All riding is on easy grade, paved, off-road bikeways. This is low impact, leisurely, recreational biking!

Seminar participants should have a comfortable bicycle that is in good working order, a bicycle helmet and means of transporting a bike to various locations. Padded biking shorts are recommended. Class 1 and 2 ebikes are permitted on the areas bike paths and participants are welcome to use them. While age is not necessarily an issue (the moderators are both 77) participants should be healthy and fit enough for two hours of moderate biking exercise (e.g., approx. 10 miles an hour over level ground). Cautionary note: If you have not been on a bike in a while, some physical training and preparation is highly recommended!

PLEASE NOTE: A brief introductory meeting will be at **4:30 p.m. on April 24** to distribute materials, review potential routes, safety, gear and to answer any questions. Weather permitting, **biking will begin Wednesday, May 1**, and continue for the following 4 weeks.

Reconstruction: America After the Civil War

The end of the Civil War was only the beginning of the struggle to define what freedom meant for the former slaves, and the larger question of the relationship of the states to the federal government and how that had changed. This seminar will discuss these topics and is a follow-up to UDOLLI seminars about the pre-Civil War years and Abraham Lincoln.

Auto Ancestry – The Car industry in Dayton *NEW*

Dayton’s involvement in the auto industry is far deeper than Col. Deeds, Charles Kettering, and the Barn Gang. The first self-propelled vehicle showed up in Springfield in 1886 and over the course of the next 73 years, fifty-three different companies tried to make designing and building cars their business in the Miami Valley. Of course, parts manufacturing has been and still is a vital part of the area’s economy. Some of those companies have very interesting stories. This seminar will look at those stories from the perspectives of the manufacturers who called Dayton home and some of the people who sold them.

Concerns such as how to ask for a second opinion without offending the provider or identifying red flags in the relationship with your provider, will also be discussed.

In Peace and War: Our 32nd President, Franklin Delano Roosevelt

Nearly every poll of Presidential scholars ranks FDR in the top five of all American presidents, and usually in the top three. So, what specifically earns him such overwhelming respect and admiration? In this two hour Zoom seminar we'll find out. We'll begin by recognizing that the catalyst for presidential greatness is the existence of tremendous obstacles: without extraordinary challenges, a president's greatness may go forever untested and unknown. That level of extreme challenge is why FDR is so often placed in the same category as George Washington and Abraham Lincoln. Without those three Presidents' adroit leadership at the most critical junctures in American history our nation as we know it would not exist.

We'll look at FDR's background, the personal and professional crucibles that prepared him for the Presidency, and his successes in steering the nation through the travails of the Great Depression. We'll then cover FDR's last two terms as he led America and the Allies in the struggles against the Axis Powers of World War II. We'll close with an assessment of his many strengths, but also his weaknesses, and some significant blind spots.

1 Tuesday, April 2

6-8 p.m., ZOOM

Dr. Bud Baker is Emeritus Professor of Management at Wright State University where he spent 30 years in various teaching and administrative positions. Prior to that, he served for 20 years in the US Air Force, as a cargo jet navigator, Strategic Air Command missile crew commander, US Air Force Academy professor, and aircraft acquisition program manager at Wright Patterson AFB. A frequent guest speaker in various UDOLLI seminars, Dr. Baker has also moderated Zoom seminars on military aviation, the momentous presidency of Franklin Delano Roosevelt and contemporary business issues in the media. He is very much looking forward to this seminar, in which he plans to show persuasively why FDR's presidency was the most momentous of America's last one hundred years.

Putinism and the Russo-Ukrainian War **NEW**

This seminar will examine Putinism in detail and evaluate the Russo-Ukrainian War 2022-2024. The first session features a political and economic account of Putin's Kremlin dictatorship. It will include his invasion of Ukraine, how he will lose the war and the prospect for a fragmentation of Russian control over Siberia. The second session will cover military details of the war including the major combat systems, as well as strategies and tactics. The result in global geopolitics will conclude the seminar.

2 Tuesdays, April 9 and 16

6-8 p.m., ZOOM

Dr. Elmo E. (Joe) Roach is a native Daytonian, graduating from the University of Dayton with a Bachelor of Art degree in 1963. He is also a USMC veteran. He earned his PhD in Russian History from Ohio State University in 1968. As a professor of History at Bradley University, in the 1990s, he served as a consultant for Caterpillar Inc. joint venture efforts in Russia and Siberia and the Samara Oblast on the Volga River. In 1994 he was selected as a Foreign Member of the Russian Academy of Natural Sciences, Moscow, Section on Geopolitics. He is a Bradley Emeritus Professor.

ADDITIONAL PROGRAM INFORMATION

Severe Weather and Other Community Emergencies—UDOLLI seminars will be cancelled when the University of Dayton is closed for inclement weather. If the situation is ambiguous, there will be a message on the office phone at 937-229-2347. Listen for details on WHIO-TV or WHIO-AM/FM radio.

Housekeeping—We are a program run mostly by volunteers. Please help by keeping classrooms and common areas clean.

Lunch—Options include the Daniel J. Curran Place cafeteria, ArtStreet Café, Kennedy Union and nearby restaurants—or you may bring a bag lunch.

Quiet in the Halls—Socializing is highly encouraged, but not outside seminars in progress.

Seminar Liaison—UDOLLI members act as seminar liaisons for the moderators, helping to ensure that announcements are made, and equipment is set up and handouts are distributed. Not only are seminar liaisons essential to the smooth functioning of UDOLLI, but volunteering as a liaison also provides an opportunity to become better acquainted with moderators and seminar participants.

Training will be provided! If you would like to volunteer to be a seminar liaison, please contact the UD Special Programs and Continuing Education at 937-229-2605. Thank you!

ATTENDANCE

We encourage you to attend all seminars and activities for which you have registered. Our moderators volunteer their time so it is important for them to know it is valued and appreciated.

- If you are registered for seminars and circumstances prevent you from attending seminars, before the session begins or after the session has started, please call Special Programs and Continuing Education at 937-229-2347 to cancel your seminar registration.
- An early cancellation helps another member attend a seminar that was full or at its capacity.
- Do not attend a seminar for which you have not registered, because some seminars have seminar limits or recommended text readings or materials.

UDOLLI MEMBER MERCHANDISE

Express your UDOLLI pride with merchandise that has been created with you in mind. OTHER CONTINUING EDUCATION PROGRAMS AT UD

SENIOR FELLOWS

If you are 60 years of age or better, you can become a UD Senior Fellow. Membership in the Senior Fellows program includes the privilege of attending any two seminars for which you meet the prerequisite—undergraduate—each term on an audit basis. (*Books and special fees are extra.*)

DAYTON CELEBRATION CHORUS

The Dayton Celebration Chorus is an adult community chorus that serves the city of Dayton and the Miami Valley region. Open to all interested adult singers and requiring no audition, the Chorus sings a diverse repertoire of both sacred and secular choral literature, with an emphasis on American music. Founded in 2003 as the Schuster Center Celebration Choir, the organization was first sponsored by the Victoria Theatre Association. In 2014, the group affiliated with the University of Dayton Office of Special Programs and Continuing Education.

Performance venues have included the Schuster Center for the Performing Arts, Courthouse Square Grande Illumination, Kroc Center, Dayton Art Institute, Victoria Theatre, The Greene, UD Arena, Fifth Third Field, and various churches and retirement communities. Chorus members have enjoyed performance opportunities with the Dayton Philharmonic Orchestra's Holiday Festival Community Chorus, the UD New Horizons Band, the Miami Valley Symphony, and various guest artists and conductors. DCC has been selected annually to sing the National Anthem for the Dayton Dragons at Fifth Third Field.

NEW HORIZONS MUSIC

Learn to play music in a band as a senior adult—even if you have no musical experience! Playing music is a special joy that will help you maintain mental and physical health. It is also a way of experiencing life—playing music from the past keeps us in touch with those feelings; daily practice keeps us active in the present; and striving for new goals attaches us to the future. One band member describes it as “serious fun.”

As a member of New Horizons Music, you will meet new friends and work with them as a team to learn music for concerts and other performances in the community. New Horizons ensembles typically perform many times each year in venues ranging from formal concerts to shopping malls and from parks to retirement and nursing homes.

UD New Horizons Music offers adults 50 years of age or better the opportunity to begin a musical instrument and provides a re-entry point for those who have been away from active music making for many years. Instruments taught include: flute, oboe, bassoon, clarinet, saxophone, trumpet, French horn, trombone, baritone, tuba and percussion.

For registration information, please visit: https://www.udayton.edu/continuing_education/senior_programs/nhmp/index.php

CONNECTING GENERATIONS & CULTURES

A TALENT BANK & CLEARING HOUSE PROGRAM

With age comes experience and wisdom that can be priceless when shared with others

1. What Is This Program About?

The UDOLLI Connecting Generations & Cultures (CGC) program connects UDOLLI to the Dayton area community utilizing our vibrant, highly educated, experienced and talented members. Connecting Generations & Cultures is a Talent Bank & Clearing House program for community organizations. We put your talents to work by connecting you to organizations to help carry out their mission. As members of our program, many of you are ready and anxious to share your decades of knowledge, experience and wisdom with those who can benefit.

2. Connecting Criteria

The CGC program has been reaching out to various community groups, and many have reached out to us. We connect to organizations that meet any one of these criteria: is it educational, cultural, civic, social, governmental, inter-generational? Can our members and the organization's members contribute to and benefit from the connection experience? As opportunities come along we promote them to UDOLLI members. Check out our connected organizations at right. Let us know of any organizations you feel would make a good connection with our program.*

*NOTE: A recommendation is no guarantee we will make a connection. We carefully review every idea to ensure it fits within UDOLLI's mission and the objectives of the Connecting Generations & Cultures program. Our Executive Director makes all final decisions. All UDOLLI members involved with any Connecting Generations & Cultures program must understand and accept that they represent the Osher Lifelong Learning Institute at the University of Dayton and must adhere to all rules and regulations that may apply to the University and our program.

3. Connecting You

Here's how we get you connected. We communicate an organization's needs in a variety of ways: email, newsletter, seminar announcements, special presentations and promotional flyers. You'll learn about the organization, decide if you're interested and then you reach out to the organization's contact directly. You are then on your way to a new adventure.

Your connection could be for a single project or an ongoing program.

For example, you could share your ideas during a creative planning session or work with the organization on a regular basis to carry on their mission. There may be several of your fellow UDOLLI members involved in the same activity, or it might be just you. Whatever project or organization you get involved with, you will meet new friends and perhaps build lifelong relationships. You may even find that a connection can be life changing. You may be a senior, but you're not done yet! You can share your years of experience and wisdom to make our community a better place.

4. Our Connected Partners

The following list includes all organizations to-date we have connected with since the inception of CGC in 2013. With some of our connections our members have been deeply involved working on a variety of projects, while with others we are just getting started in making deeper connections. The connection may currently be active or inactive. Our members have contributed their expertise in a variety of ways: teaching, mentoring, donating, facilitating deliberation discussions, and facilitating creative and strategic planning sessions.

1. National Issues Forums Institute (Kettering Foundation)
2. Mound Street Academies
3. Miracle Clubhouse (Miami Valley Goodwill Easter Seals)
4. Ohio Law Enforcement Association

REGISTRATION AND RELATED INFORMATION

Remember these helpful tips and important facts as you register.

- The \$80 registration fee entitles you to select as many seminars as you wish.
- Payment is due when you register. Your confirmation letter serves as your receipt/invoice.
- You can register for UDOLLI seminars online, by phone or by mail. Email requests will not be accepted.
- Seminars may be cancelled if fewer than 10 persons register. You will be notified should that occur.
- Once a seminar reaches its specified “seminar limit,” you will be waitlisted and notified if an opening occurs.
- If you cannot attend the first day of your seminar, please let us know by calling 937-229-2347. Otherwise, you may be withdrawn from the seminar.

About refunds. To receive a refund of your \$80 registration fee, please notify Special Programs and Continuing Education, 937-229-2347, by **Monday, March 11**. After that date, refunds are not given.

Parking permits. In order to park on campus, everyone must properly display a valid University of Dayton permit. This also includes handicapped-designated spaces.

The fee for parking is \$60 per permit issued; however, as a courtesy and thank you for your continuing support of the UDOLLI, especially during the pandemic, we are offering **one pass per household free of charge to you**. If a spouse or someone else in the household requires a second permit, the fee of \$60 will apply.

After you have registered and prior to the start of the spring program, you will be contacted by the Office of Special Programs and Continuing Education with regard to ordering your parking permit. You may then stop by the office during the first week of seminars to pick up the permit you have ordered. Office hours are Monday through Friday 8:30 a.m.-4:30 p.m.

The R1 permit is also valid on the main campus, after 4 p.m. weekdays; open parking (without a permit) is allowed on weekday evenings after 7:30 p.m. and on weekends.

Once you receive your permit, please keep it in a safe place for use during the program. Remember to display it properly from the rearview mirror. Lost or stolen permits, as well as parking citations, are the responsibility of the member. Replacement permits cost \$60 per person, per permit.

Face coverings. Face coverings remain optional in most shared indoor spaces on campus.

Are you interested in moderating a seminar?

Moderators are the life blood of our program: without moderators, there's no UDOLLI. If you have a passion for a subject that might be interesting to others, consider offering it as a seminar. It can be a lot of work, but it's almost always very rewarding and a lot of fun. It also comes with perks: free seminars for you and your spouse for a year and complimentary parking for the term in which you teach. Best of all, it's easy! If you'd like to propose a topic, send a proposal to jmitchelli@udayton.edu. Include the following:

1. Your name, mailing address, phone number and email address
2. The title of your seminar, with a brief description of what the seminar participants will learn
3. Any special requirements
4. A brief biography demonstrating your expertise in the subject area and your presentation abilities.

Let us know if you'd like a sample proposal. Julie Mitchell, the executive director of UD's office of Special Programs and Continuing Education, will discuss your seminar proposal with the UDOLLI curriculum committee. If your topic is selected, you'll be asked to fill out a moderator/seminar information form. This will give us the information we need for our program catalog, explain your room setup and audio/visual requirements, and tell us the days and times you're available to moderate.
