Online Professional Learning

PARCC is developing a series of online professional learning modules to help teachers, counselors, school leaders, and school and district testing coordinators understand the new PARCC Assessment System and put the new high quality assessments to work for them and their students.

These tools will help educators learn how to read results from the assessments, make inferences about the results, and identify learning gaps in time to make relevant instructional decisions and modifications.

The first two completed online professional training modules focus on the PARCC Common Assessments Overview and the PARCC Accessibility System.

Future professional online learning module topics include: Introductions to the PARCC Mid-Year Assessment, PARCC Diagnostic Assessment and the PARCC Speaking and Listening Assessment.

Available Online Professional Learning Modules

- **How To Use the Modules ? Watch this first!**[1]
- **PARCC Assessments Overview** [2] **?**
