

A U.S. Department of Energy Sponsored Program

INDUSTRIAL ASSESSMENT CENTER

Free Energy Audits for Industrial Facilities

THE UNIVERSITY OF DAYTON Industrial Assessment Center is one of 24 IACs funded by the U.S. Department of Energy (DOE) to conduct FREE energy assessments for small to mid sized manufacturers.

ABOUT US

Since 1981, the UD-IAC has helped over 950 manufacturers reduce energy costs and stay competitive by providing no-cost energy assessments.

As part of an assessment, a small team of faculty and graduate students trained in industrial energy efficiency will visit your facility for a single day and compile a customized report with recommendations for energy cost reduction.

Our energy assessments typically identify energy savings opportunities that cost-effectively reduce annual energy use by about 13%. On average, clients report saving 7% within 9 months.

HOW TO QUALIFY

To qualify for a free assessment, your facility must have:

- SIC code between 2000-3999
- Annual energy bills between \$100,000-\$2,500,000
