

# YOU'RE ALREADY AN ACADEMIC STANDOUT.

*Our summer bridge program ensures a smooth start out, too.*

## You are invited to attend the Minority STEM Summer Bridge Program at the University of Dayton.

**July 23–29, 2017**

What can a week at UD this summer do for you? Just take it from some of our recent participants:

*The counselors' attitudes really made the week worth it.*

**—Eromogbai Omoijuanfo**

*This week has been amazing. I wish it had been longer than a week; I don't want to go home!*

**—Gifty Antwi**

*The amount of advice from current students, alumni and all other organizations that support STEM students is truly priceless.*

**—Khalilah Manson**

*It is an amazing experience every new student should have.*

**—Carolyn Thompson**

*Every student going into STEM should do something like this. It is a great program, and you make friends before school starts.*

**—Joshua Biris**

*It prepares you for what college life will be like as well as what to expect. You even make friends and a support group.*

**—Aaron Edwards**

There is no cost associated with this program; all meals, housing and activities are covered. You're only responsible for your transportation to and from UD.

For more information, please contact Gerica Brown, School of Engineering, at [gbrown2@udayton.edu](mailto:gbrown2@udayton.edu) or Aaron Witherspoon, College of Arts and Sciences, at [awitherspoon1@udayton.edu](mailto:awitherspoon1@udayton.edu).

This event is co-sponsored by the **School of Engineering** and **College of Arts and Sciences**
