World of Difference.*

# WOMEN ENGINEERING PROGRAM

## PROGRAM OVERVIEW

The Women Engineering Program (WEP) recruits top female students interested in shaping the future through engineering. This program allows female students to prepare for a future in engineering through leadership opportunities, academic excellence, networking, service and professional development.

*"UD's School of Engineering has taught me that I can create change in the world, and the Women Engineering Program helped me see this."*

- Brooke S., Civil Engineering

Through the Women Engineering Program, you can:

### GET CONNECTED

- Live with other female engineering students in the Women in Science and Engineering Integrated Learning-Living Community.
- Build community with women engineering students through dynamic events and programming.
- Find your perfect mentor to start you on your path to success.
- Build relationships with faculty through interactive events.
- Network with professionals during mentoring and dinner events.

### GET INVOLVED

- The Society of Women Engineers and other professional engineering organizations.
- Phi Sigma Rho, the engineering social sorority.
- Service opportunities.
- ETHOS (Engineers in Technical Humanitarian Opportunities of Service-Learning) program.
- Sustainability, Energy and the Environment initiatives.
- Athletic, musical or cultural events.

### INSPIRE FUTURE ENGINEERS

- Be a counselor for a University of Dayton engineering summer camp.
- Engage local kids in hands-on engineering activities.
- Visit schools to share your passion for engineering.
