MIDDLE AND HIGH SCHOOL TEACHERS!

NSF RET: Inspiring the Next Generation of a Highly-Skilled Workforce in Advanced Manufacturing and Materials

Come join us for an exciting summer as we dive into the world of materials and manufacturing engineering! Educators will have the opportunity to attend ASM Materials Camp, participate in research at Central State University, Wright State University or the University of Dayton, develop curriculum with other educators using the TeachEngineering format, tour local industries, and hear from inspiring speakers in the world of engineering!

National Science Foundation Research Experience for Teachers

ASM Materials Camp

University Research Experience

TeachEngineering Curriculum Development

Industry Tours and Speakers

$5,500 Stipend

ASM Materials Camp
June 19-23

University Labs, Tours and Curriculum Development
June 26-July 27
