

## University of Designated Smoking Areas Operational Practice

Title: Designated Smoking Areas

Issue Date: June 1, 2013

Revision Date:

Implementation Date: August 1, 2013

- I. Enforcement of and adherence to the Smoking policy are community responsibilities. Any violation of this policy will be handled through the standard disciplinary procedure appropriate to an individual's relationship to the University. Faculty, staff, students, and visitors (including contractors) are expected to advise others of the smoking policy. The effectiveness of this policy relies on the politeness, thoughtfulness, cooperation, and common sense of smokers and non-smokers alike. However, non-compliance or repeated observed infractions of this policy should be reported as soon as possible. Alleged violations by Faculty or Staff should be reported to the Office of Human Resources, who will advise the person's supervisor. The supervisor is responsible for addressing issues with the violator. Student violators should be reported to the Office of the Dean of Students.
- II. Designated areas will be equipped with ash urns, limited seating and in some cases will be partially covered. All areas will be clearly denoted and signed.
- III. Designated area locations:
