

The thesis component of the Honors Program

consists of a three-semester, six-credit-hour project that culminates in a significant research contribution, performance or body of creative work.

The Honors thesis project involves a collaboration with one or more faculty members who help direct and focus the student's original thesis topic.

The University Honors Program sponsors the Honors Student Symposium as an opportunity for the students to present their theses to the University community, family and friends.

The Patrick F. Palermo Honors Program Founders Fund

provides support for substantive Honors thesis projects "that involve international research, service and leadership in the community, or which advance the realization of a just society."

The awardees for 2017-18 are

Mercedes Ramsey, Jamie Vieson and Ryan Westerbeck

The Daniel Arnold Memorial Scholarship

provides a senior-year scholarship for an Honors student from the College of Arts and Sciences who exemplifies Danny Arnold's commitment to research by completing a thesis project.

The awardee for 2017-18 is

Olivia Grondalski

The Berry Summer Thesis Institute

engages a cohort of mid-career Honors students with records of academic success and an interest in research in a 12-week on-campus program.

Thesis students present their research-in-progress at the Honors Students Symposium during their junior year and their final projects as seniors.

The members of the 2018 cohort will be announced

at the Honors Reception on March 9, 2018

The Clare Boothe Luce Undergraduate Research Grant Program supports women in select STEM fields who are undertaking undergraduate research projects. Faculty mentors advise, motivate and prepare recipients to apply for graduate study and pursue careers in academia and/or research during the three years of participation.

The awardees for 2017-20 are

Anna Benton, Maggie Jewett, Emily Jones and Sarah Miller
