

Rx Only Flex Card Works for you!

Discover the Flex Card

What is an Rx Only Flex Card?

A Prescription Only or Rx Only Flex Card is a stored value card that reflects the balance of your Healthcare account. This card allows you to use these funds to easily purchase prescriptions at IIAS* pharmacies (ex. Walgreens, CVS). Since there are no

transaction fees or pin numbers, the card should be swiped using the “credit/credit card” option. When the Rx Only Flex Card is swiped, the funds are

withdrawn from your account.

How do I benefit from using an Rx Flex Card?

Paper-free, Hassle-free – Simply present your Rx Only Flex Card at participating pharmacy locations wherever Visa® debit cards are accepted, and the amount will be automatically deducted from your account. By using the Rx Only Flex Card, you can pay for prescriptions at the pharmacy. Submit all other non-prescription claims quickly and easily via the online portal or mobile app.

IRS rules for participating pharmacies, discount stores, department stores and supermarkets mean no receipt reminders!

Will I still need to keep my receipts?

You should always keep your receipts, regardless of eligibility for automatic approval. According to IRS regulations, each Flex Card transaction needs to be verified for eligibility in the same way that paper claims are verified. If a transaction cannot be automatically approved as allowed by the IRS, myCafeteriaPlan may request follow up documentation.

TIP: Only use your card for expenses incurred in your current plan year.

What is a “receipt reminder” ?

A receipt reminder is a notice that supporting documentation is needed to verify transactions that have occurred. Automatically approved transactions will not be included on the notice.

When you receive a receipt reminder, *please respond immediately*. Gather all supporting documentation for each transaction listed and submit it along with the reminder letter. Failing to respond could result in your Rx Only Flex Card being deactivated.

Will I be asked to document all the expenses paid with the card?

We automatically approve as many flex card transactions as possible and as allowed by the IRS. If we are unable to automatically approve a transaction, you will receive a notice requesting documentation. To avoid receiving notices, only use your card for prescriptions at IIAS (Inventory Information Approval System) approved merchants.*

If the transaction is completed at a non-IIAS provider or is later determined to be ineligible, you will be notified of the transaction and the amount of time you have to respond. You may either repay the plan or submit substitute receipts. At the end of that period, if the expense has not been approved or repaid, either a payroll deduction for that amount will be taken by your employer, or your Rx Only Flex Card will be deactivated. You will be notified of any payroll deductions by your employer.

What if my card is lost or stolen?

If your card is lost or stolen or you would like to order additional cards, simply contact myCafeteriaPlan. You can also order additional or replacement cards online by logging into your account at www.myCafeteriaPlan.com. Cards are issued in pairs. There is a \$5 fee for each pair of cards issued, which is deducted directly from your account.

*IIAS- inventory information approval system is a point-of-sale system that has the ability to verify that the merchandise being purchased with an RX only Flex Card is an eligible expense, as defined by the IRS.
