Typically retail pharmacies dispense a 30-day supply of medication. Some of our retail pharmacies can dispense up to a 90-day supply of medication. If you purchase more than a 30-day supply at these retail pharmacies, you will need to pay one copay for each full or partial 30-day supply filled. For example, if you order a 90-day supply, you will need to pay three 30-day supply copays. If you get a 45-day or 50-day supply, you will need to pay two 30-day copays.

Generally you must fill prescriptions at a network pharmacy to receive benefits under this Plan. In certain circumstances you may be reimbursed for drug costs when you must get a covered prescription filled at an out-of-network pharmacy. You will have to pay the cost of the drug and submit a claim to us. You will be responsible for all amounts over our negotiated cost, plus any deductible, copayment or coinsurance listed in this benefit chart. Please see “When can you use a pharmacy that is not in your plan’s network?” section of your Evidence of Coverage for complete information.

Vaccine Coverage

The up front costs for vaccines will vary based upon where the vaccine is purchased and administered. Some vaccines, such as Flu Vaccines, are paid under your Medicare Part B coverage. Vaccines that are covered by Medicare Part B are not covered by your Part D plan. Please see your Evidence of Coverage booklet for a complete explanation of your vaccine coverage.

For prescriptions filled in 2012, you will receive this discount once the costs paid by you and this plan reaches \$2,930 and continue to receive this discount until the cost paid by you and the Coverage Gap Discount Program reaches \$4,700. Drug Manufacturers have agreed to provide a discount on brand drugs which Medicare considers Part D qualified drugs. Your plan covers some brand drugs beyond those covered by Medicare. The discount will not apply to benefits described in the “Extra Covered Drugs” section of this Benefit Chart.
