

SAFE COMPUTING: YES, YOU ARE A TARGET!

Thursday, January 28, 2016
10-11 a.m. / KU 310

Presented by:
Dean Halter,
IT Risk Management Officer

A poorly protected computer or unsuspecting user may be compromised within minutes of accessing the Internet. During this session, Dean Halter will discuss some of the threats and go over simple ways users can protect their computers and data, both at work and at home.
