*FROST BROWN TODD LLC*

Frost Brown Todd, a law firm with more than 500 lawyers across its eight-state footprint, offers a deep, talented roster of legal professionals. Committed to their clients, the firm leverages technical, industry and legal knowledge and hands-on experience to serve a diverse client base, from global multinationals to small, entrepreneurial companies. The firm's client teams integrate that powerful network of legal talent and business experience to provide innovative and comprehensive services across their regional platform. Frost Brown Todd focuses on delivering to clients what they report needing the most: sound legal counsel, responsive service, concise

communication and an eye toward being as efficient in representation as possible. The firm favors a lean staffing model in which the likely needs of a project are considered at the outset. Many projects are handled by a single attorney, who becomes intimately familiar with the facts and laws relevant to the project. This approach reduces costs and avoids potential for duplicative work. In some projects, a threshold staffing assessment indicates that more than one attorney will be needed and a team of attorneys must be assembled. These teams include qualified associates, paralegals and project assistants who can capably handle work requiring different levels of expertise. All matters are overseen by the relationship attorney or team leader to ensure the highest standards of quality and strict adherence to technical requirements. The firm believes that all clients are firm clients. At the same time, they encourage the attorneys to be passionate about their clients' businesses and their success. This guides their decisions to focus on doing what is in the best interests of the clients, to spend time understanding the complexities of the clients' businesses and industries, and to be accessible to clients as their needs dictate.
