

# SETTING UP YOUR LAPTOP

## WINDOWS 7 MINIMUM CONFIGURATION REQUIREMENTS

### Hardware

- Intel Core Duo or Core 2 Duo or Mobile Pentium M processor; AMD Turion 64 or Mobile AMD Sempron processor
- 4GB memory
- 256GB hard drive or larger
- Wireless 802.11 a/b/g network capability

### Software

- Windows 7 Pro is strongly recommended.
- No peer-to-peer programs, such as Kazaa, Morpheus, Limewire, or BearShare. If you have any of these software programs installed, please have your system restored before coming to the University of Dayton School of Law.
- Examine the computer for any viruses or spyware and remove if found. Sometimes, the computer may have to be restored to the original factory condition in order to delete the virus or spyware completely. Make sure you backup all your data before doing the recovery process.
- Install Cisco Clean Access for internet access and iPrint for printing: [Instructions \(PDF\)](#).
- Install Microsoft Office 2010 and other essential software from [UD's software site](#).
- Install [Acrobat Reader and Flash Player](#).
- Run Windows Updates.
- An internet connection from home is the student's responsibility.
- Windows 8 is not supported by Examssoft at this time.

## APPLE MINIMUM CONFIGURATION REQUIREMENTS

### Hardware

#### Minimum recommended configuration for Snow Leopard 10.6.8

- Intel processor
- 1GB of memory; 2GB or more recommended
- 256GB hard drive or larger
- DVD drive for installation

#### Minimum recommended configuration for Lion 10.7.x

- Intel Core 2 Duo processor or better
- 2GB RAM; 4GB or more recommended
- 256GB hard drive or larger
- You'll need an internet connection to purchase and download OS X Lion if it's not already

installed on your computer. Lion OS can only be purchased from the Mac App Store. Snow Leopard is the minimum requirement for running the Mac App Store application.

## Software

- Snow Leopard or Lion operating systems are recommended (OS X 10.6.8, OS X 10.7.x).
- Install Cisco Clean Access for internet access and iPrint for printing: [Instructions \(PDF\)](#).
- Install Microsoft Office 2011 and other essential software from [UD's software site](#).
- Install [Adobe Reader and Flash Player](#).
- Run System updates.
- An internet connection from home is the student's responsibility.
- Leopard 10.5.x is no longer supported. There are problems related to the network client, printing and Examsoft.
- Mountain Lion 10.8.x is not supported by Examsoft or iPrint at this time.

## LINUX

Linux is not supported.

If you have any questions, please contact the student Computer Support Office at 937-229-4924 or [email](#) Mark Gutzwiller.
