Professional History

Chip Lindeke is President of Rafferty Rafferty Tollefson Lindeke Architects. He is a licensed architect and has more than 25 years of project experience, over a broad range of project types. While much of this experience is with educational and religious communities, he also has developed a strong understanding of federal and state governmental projects. Chip is the coordinator of RRTL's overall project management efforts, and is actively involved in numerous city and state professional and civic associations. Chip has worked on several nationally recognized projects, such as St. Francis de Sales in Morgantown, West Virginia, and San Fernando Cathedral in San Antonio, Texas. He fulfills varied project roles, such as Principal in Charge (PIC), Project Manager (PM), and a Design Team Member (TM).
