

Smoking on the University of Dayton Campus

Effective Date: August 1, 2013

Approval: August 12, 2014

Maintenance of Policy: Facilities Management & Human Resources

PURPOSE: The University of Dayton strives to maintain a healthy workplace and productive environment for all faculty, staff, students, and visitors. For that reason, the University allows smoking on campus only in designated smoking areas.

SCOPE: All University owned or leased land and buildings.

DEFINITIONS:

(a) "Smoking" is the smoking of tobacco, other nicotine products, and/or a smoking devices that expels a smoke or vapor. It includes, but is not limited to, use of cigarettes, electronic cigarettes, cigars, and pipes.

POLICY:

1. Smoking is allowed only in the exterior designated smoking areas. All tobacco products should be disposed in appropriate smoking receptacles – not on the ground. Designated smoking areas are clearly marked with signs. (see "Designated Smoking Areas Map").
2. Public streets, alleys, and sidewalks are not affected by this policy nor are any privately owned vehicles. Smoking is not allowed on University owned roadways, parking lots outside of designated areas, and sidewalks.
3. All University buildings including student residence halls and apartments (per the University of Dayton Housing Contract) are smoke free, except for University Houses.
4. Smoking is also prohibited in all vehicles owned or leased by the University, including golf carts and club car type vehicles.
5. In our continued efforts to promote a healthy environment, we offer those seeking to quit smoking cessation assistance through the University's Human Resources office.
