

THIRD PARTY VERIFICATION REGARDING BACKGROUND CHECKS

_____ (“Third-Party Entity”) wishes to host a program on the University of Dayton (“University”) campus that involves minors, and this program will involve overnight stays.

THIRD-PARTY ENTITY

Under its Minors on Campus and Working with Children Policy and Background Check Policy, the University requires adults who are involved in the overnight-stay component of a minors program on campus to successfully complete, annually, a background check. The University’s background checks search county criminal records, federal criminal records, the national criminal database, and the sex offender database, for information regarding, among other things, felonies, sexual offenses, drug offenses and incidents involving violence.

This document verifies that Third-Party Entity has in place a background-check protocol that searches the same databases as does the University’s background check process. This document further verifies that the individuals listed on Attachment A to this document, who are employed by or otherwise affiliated with Third-Party Entity, have successfully completed background checks on the date(s) indicated, *i.e.*, each background check indicated no criminal convictions and no other incident(s) that would be considered problematic by the University for individuals working with children. Third-Party Entity hereby agrees to bear all consequences for providing false or inaccurate information on this form, including but not limited to indemnifying and holding harmless the University, its officers, agents, students and employees from and against any and all claims, demands, actions or causes of action arising from any misrepresentation contained in this document. This document is being signed by an individual with knowledge of the matters stated herein and authority to bind Third-Party Entity.
