

Adjunct Faculty Parking Permit Procedure

All vehicles parked on University property must display either a valid permanent or temporary University parking permit. The University pays for parking permits for adjunct faculty who are not otherwise affiliated with the university. University full time employees (faculty and staff), graduate assistants, students, emeritus faculty and part-time staff are excluded from this policy. Faculty with emeritus status should contact the Associate Provost for Faculty and Administrative Affairs directly. Adjunct faculty should contact their department chair and dean's office to inquire about the process for securing a permit from Parking Services for the semester(s) they are teaching.
