

## STARS Panel Discussion: Faith & the Empirical World

September 18, 2014 • 4:00 pm  
Science Center Auditorium (SC 114)

This discussion is the concluding event of the daylong 2014 STARS Symposium. The panel is composed of Jack Ling, Executive Director, Institutional Diversity and Inclusion, Brad Kallenberg, Professor of Religious Studies, Margaret Pinnell, School of Engineering: Department of Mechanical and Aerospace Engineering and Michelle Hayford, Director of the UD Theatre Program. The discussion will be moderated by Brian LaDuca, Director of ArtStreet and will include ample opportunity for audience interaction and reaction to the panelists comments. A reception with hors d'oeuvres will follow the discussion.

STARS (Spotlight on Technology, Arts, Research and Scholarship) is an initiative of the University's Office for Research. STARS events showcase advances in research and scholarship at UD and foster connections and collaboration among faculty, staff and professional researchers.

Free and open to all students and faculty. Sponsored by the Office for Research. For more information, contact Mary Connolly at 937-229-3493. Learn more about STARS at [go.udayton.edu/stars](http://go.udayton.edu/stars).
