

# Green Dot: Syllabus Statement Templates

Thank you for considering adding a statement on your syllabus about the Green Dot Initiative and your stance against power based personal violence. Below, please find a list of template options for you to choose from. We invite you to modify any of these statements or create your own in order to personalize the message.

If we can provide you with any further information, please don't hesitate to contact us at [greendot@udayton.edu](mailto:greendot@udayton.edu).

Sincerely,

Kristen Altenau Keen, Sexual Violence Prevention Education Coordinator

Alecia Smith, Alcohol and Other Drug Education Coordinator

Jessica Hoelting, Assistant Director, Community Standards and Civility

- I believe in green dots. A green dot is any behavior, choice, word, or attitude that promotes safety for everyone and communicates utter intolerance for violence. A green dot is simply your individual choice at any given moment to make our world safer. Visit [go.udayton.edu/greendot](http://go.udayton.edu/greendot) to learn more and sign up for training.
- A green dot is any behavior, choice, word, or attitude that promotes safety for everyone and communicates utter intolerance for violence. A green dot is simply your individual choice at any given moment to make our world safer. What green dots will you do this semester? Visit [go.udayton.edu/greendot](http://go.udayton.edu/greendot) to learn more and sign up for training.
- Power based personal violence is unacceptable in our community. This includes sexual violence, harassment, stalking, dating violence, and hazing. While you are in this class, I hope that you take active steps with me to end violence on our campus. I live the green dot. Do you? Visit [go.udayton.edu/greendot](http://go.udayton.edu/greendot) to learn more and sign up for training.
- No one has to do everything in the fight against sexual violence in our campus community. But everyone has to do something. Once a week in class, we will take five minutes to discuss green dots you have witnessed the previous week. A green dot is any behavior, choice, word, or attitude that promotes safety for everyone and communicates utter intolerance for violence. A green dot is simply your individual choice at any given moment to make our world safer. Visit [go.udayton.edu/greendot](http://go.udayton.edu/greendot) to learn more and sign up for training.
- Imagine a map of our campus community that is covered with red dots. Each red dot represents one moment of violence in our community. Each red dot is one decision that one person made to cause harm to another person at UD. Now imagine that slowly green dots begin to appear. These green dots represent members of our community standing up to stop the red dot. A green dot is any behavior, choice, word, or attitude that promotes safety for everyone and communicates utter intolerance for violence. Slowly the green dots begin to fill the map, and drown out the violent red dots. And soon after, violence starts to decrease in our community. All because one person decided to do one green dot to stop one more red dot from appearing on our map. What green dot will you do this semester? What will *you* do to make our community safer? Visit [go.udayton.edu/greendot](http://go.udayton.edu/greendot) to learn more and sign up for training.
