

# Sophomore Housing Process Overview

## Things to begin thinking about and discussing now...

Reflect and decide on how many people and whom you would like to live with (if any). To be considered a valid group, you must have either 2, 4 or 6 student members.

If you plan to have a roommate/roommates, discuss with them whether or not you wish to participate in a Designed Learning Experience, and if so, which one.

If you will be a part of an established group throughout the housing process, determine which member of your group will serve as the "Group Leader."

If your group consists of more than 2 people (including yourself), decide on who you would like to be your roommate partner and confirm that the decision is mutual.

With all of your Group Members, determine what type(s) of housing you seek and how you will plan to prioritize all of the housing types available to you.

UNIVERSITY of  
DAYTON

## Steps to complete after March 10, 2014...

Visit <http://myhousing.udayton.edu> to create housing application

1. Verify your personal contact information

2. Digitally sign the housing contract

3. View the statement on Medical Accommodation and the process to receive an accommodation

4. Choose to apply for a Designed Learning Experience or skip this step to only apply for the General Housing Assignment Process.

5. Create or Join a Group. If you wish to apply as an individual, skip this step.

6. Pick a roommate

7. Prioritize room types

8. Finalize your application
