Data Projector Controls

POWER
To power the projector ON/OFF press the **Power On/Off** button. The screen will go down automatically.

The **Mute Display** button will mute the projector without muting the PC monitor.

INPUT
Select which **INPUT** to display to the projector. The selected input will be highlighted in white.

SOUND
Use the up or down buttons to adjust room **AUDIO** volume. The center button will mute the room audio. Make sure that volume at the source is turned up and is not muted.
**PC Instructions**

**Access the Windows Desktop**

**Login to the Workstation**

1. Click anywhere in the Windows 8.1 lockscreen (picture of Chapel of the Immaculate Conception)
2. The login screen should say “Log on to Novell”, if not, select the “Novell Logon” option under the username and password fields.
3. Enter your UD login information into the username and password fields.
4. Click the right arrow or hit the enter key to login

**Access Your Network (Novell) Files**

**Login to the Campus Network**

1. Logging into this PC also logs you into Novell
2. Double click on “This PC” on the Windows desktop
3. Your shared folders will show up under “Network locations”

**Gain Secure Access to the Internet**

**Login to the UD Network Authentication System**

1. Upon login a web browser window will appear prompting you for network access.
2. Enter your LDAP username and password in the provided text fields.
3. Click Sign in
4. Before you leave the room log out of the workstation by clicking on the Start Menu and selecting “Log Off.” You can also log off by pressing Ctrl+Alt+Del and clicking “Sign Out”.

Play, Pause, Stop, Prev, Next functions
USB ports are connected to the podium PC.

Data port for hardline internet connection.

Additional inputs HDMI, Laptop (VGA), and AUX can be used to connect devices such as laptops, DVD/VHS players, and cameras. Make sure to select the appropriate input on the control panel to display to the projector.
Helpful Tips: Connecting a Laptop PC to the VGA Input

1) Connect your laptop to the VGA input the via the VGA cable
2) Connect the audio end of the VGA cable into your laptop’s headphone jack. Make sure the opposite end is plugged in securely to the input plate

If the image is not being shown on the projector, perform the following steps:

1) Press the Windows key and the “P” button at the same time
2) Select “Duplicate”
Helpful Tips: Connecting a Mac to the VGA Input

1) Connect your Mac to the VGA input on the podium (you will need the appropriate VGA adapter for your MAC)

2) Connect the audio end of the VGA cable into your Mac’s headphone jack. Make sure the opposite end is plugged in securely to the input plate

If the image is not being shown on the projector, perform the following steps:

1) Click the Apple Icon. Then select “System Preferences”

2) Click “Displays”

3) Select the “Arrangement” tab and then check the “Mirror Displays” box
Classrooms are Shared Spaces
So please...
