The **Display Power** button flashes during the projector warm up/cool down period. Wait for flashing to stop before pressing the **On or Off** button again.

To power the projector ON/OFF press the **Display Power** button. The LED lights up when the projector is on.

Turn the knob to adjust **AUDIO** volume. The LED flashes when minimum or maximum levels have been reached.

Select which **INPUT** to display. LED lights **up to** signify which **INPUT** is selected.

How to...

**Access the Windows 7 Desktop**

*Login to the Classroom Workstation*

1. Press the Ctrl+Alt+Del keys simultaneously and release
2. The login screen should say “Log on to this computer”, if not, select the “computer only login” option under the username and password fields.
3. Enter the username faculty; leave the password blank
4. Click OK

**Access Your Network (Novell) Files**

*Login to the Campus Network*

1. Right-click the Netware Services icon (N) in the lower right corner of your screen
2. The Netware Services menu will appear; select “Novell Login . . .”
3. Enter your Novell/LDAP username and password
4. Click OK (a status window will open to display the login process and close when fully completed)

**Gain Secure Access to the Internet**

*Login to the UD Network Authentication System*

1. Start up your internet browser
2. Enter your LDAP username and password in the white boxes provided.
3. Click Log In
4. Before you leave the room log out of the workstation by pressing Ctrl+Alt+Del and clicking “logoff”.
Additional inputs HDMI, Laptop (VGA), and AUX can be used to connect devices such as laptops, DVD/VHS players, and cameras. Make sure to select the appropriate input on the control panel to display to the projector.

USB ports are connected to the podium PC.

Data port for hardline internet connection.

For assistance please contact Technology Support Services at 229-3888.
Helpful Tips: Connecting a Laptop PC to the VGA Input

1) Connect your laptop to the VGA input via the VGA cable

2) Connect the audio end of the VGA cable into your laptop’s headphone jack. Make sure the opposite end is plugged in securely to the input plate

If the image is not being shown on the projector, perform the following steps:

1) Press the Windows key and the P button at the same time

2) Select “Duplicate”
Helpful Tips: Connecting a Mac to the VGA Input

1) Connect your Mac to the VGA input on the podium (you will need the appropriate VGA adapter for your MAC)

2) Connect the audio end of the VGA cable into your Mac’s headphone jack. Make sure the opposite end is plugged in securely to the input plate

If the image is not being shown on the projector, perform the following steps:

1) Click the Apple Icon. Then select “System Preferences”

2) Click “Displays”

3) Select the “Arrangement” tab and then check the “Mirror Displays” box
SC DVD/Bluray Controls

Use directional buttons to navigate through the DVD or Bluray player menus.

Select the **Bluray Player** button to play a Bluray Disc (or a regular DVD.)

Play, Pause, Search Forward, and Search Back functions for VCR, DVD, or Blu-ray.

Select the **center button** to commit to a selection on the DVD or Bluray Player’s menu.
