

Configure UD Google Apps for personal devices using the BlackBerry Internet Service

1. On the Home screen, select **Setup**.
2. Select **Email Accounts**
3. Select **Internet Mail Account**

Step 1

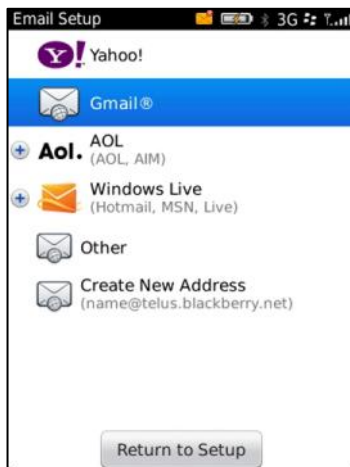

Step 2

Step 3

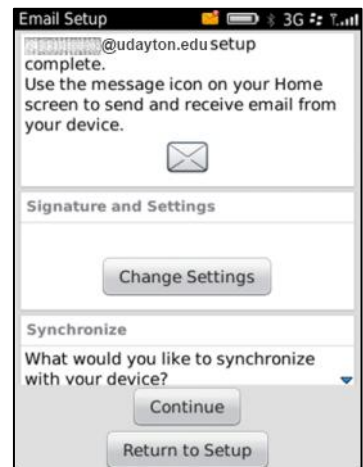

4. Select **Gmail**
5. Enter your UD Gmail username and password, then select **Continue**.
6. Select the **Change Settings** button to customize your settings, such as how your name appears when sending emails and/or the signature that you can optionally use to sign your emails. An important setting here is the Email Account Name – this is what will appear on your Home screen email icon. By default, this value will be your email address, but you can easily change it to something else such as "My UD Gmail".
