

GLOBAL CROSSING READY-ACCESS® RECORD

Easy, cost-effective, reliable, and flexible.

GLOBAL CROSSING CONFERENCING INTRODUCES READY-ACCESS® RECORD

Global Crossing now lets you record your on-demand, reservationless audio conference calls and share your recordings with others – anywhere, anytime, and with anyone.

EASY-TO-USE

- No reservation, advance set-up, or special equipment is required.
- Telephone touch-tone start/end – control your recording with the touch of a button.
- Recorded conference calls can be accessed on-line anytime using your current Ready-Access subscription.

COST EFFECTIVE

- Online MP3 file format is versatile and cost-effective.
- Option to host your own recordings and pay nothing extra – download the MP3 files for storage and playback.
- Our unique recording solution with online playback is less expensive than streaming or telephone playback solutions.

RELIABLE

- First on-demand recording solution available from a North-American Carrier-class provider.
- Media gateway architecture gives you Carrier-class audio quality, reliability, scalability for automatically recorded conference calls.
- Ready-Access Record is supported by the unmatched reliability of Ready-Access.

FLEXIBLE

- Comprehensive web-based archive management system allows the recorded conferences to be played, e-mailed, downloaded, deleted, named/renamed at the click of the mouse.
- Online playback is compatible with both RealOne® Audio and Windows Media Player®.

- Share your recordings by sending an e-mail, downloading them to a share drive, or uploading them to an intranet/internet site.

APPLICATIONS

Ready-Access Record provides a new dimension to your on-demand/reservationless audio conferencing; here are a few examples:

- Project managers can postpone note taking by listening back to recorded conference calls after the meeting.
- Meeting leaders can have absent employees listen back to critical conference calls at a future time.
- Make announcements to thousands of users worldwide by pre-recording a message, and posting the URL address on a web site or e-mailing to a distribution group.
- Administrative assistants can keep recording archives on the department intranet for future reference.

HOW IT WORKS

No need for Ready-Access users to make a reservation or schedule recording in advance. Just by pressing 2 on your touchtone phone, you can start and end a recording of your Ready-Access call any time during the conference. To access your recorded conference calls, visit www.globalcrossing.com/conferencing, and select "Archive Management," under "Audio Conferencing." Start recording and replaying your conference calls today with Ready-Access Record quality.
