

Accessing Safari Books Online

Created by: Michael McClure

Introduction

Safari Tech Books Online is an electric reference library that gives you access to thousands of technical books from industry leading publishers.

Accessing Safari Books Online

1. To Access Safari Books Online, make sure you are accessing the internet somewhere on UD's campus, residence hall, or student housing, and type in the following URL:

<http://proquest.safaribooksonline.com>

To Access Safari Books Online, outside UD's campus, residence hall, or student housing, type in the following URL:

<http://libproxy.udayton.edu/login?url=http://proquest.safaribooksonline.com/?uicode=ohiolink>

2. Safari will recognize you as an IP user at the University of Dayton.
3. Click inside the **Search** field, and type a title or topic name.
4. Click on the **Go** button. Safari will locate the books pertaining to the title or topic.
5. Scroll through the book results and select the appropriate book.
6. To begin reading this book, click on the book one time then click on the **Start Reading Online** button.
7. If you are interested in a specific topic, scroll through the table of contents on the left side of the window and click on a topic. Safari will take you directly to the topic.
