

## Living with a Mac in a Windows World at UD

Course length: 1 Hour

Course type: Instructor led

---

### Course Details

This session is designed for faculty who have students with Macs in a Windows based course or anyone who just needs to understand the similarities and differences between Macs and Windows.

Regardless of your comfort level with technology engage in a comparative journey that will showcase what Mac users can and cannot do as it relates to functionality on a Windows based computer.

Planned content includes:

- Keyboard shortcuts
- Application differences
- Methods to run Windows on a Mac
- Options to view Windows files on a Mac without a Windows OS
- Online help resources
- Printing
- Common issues you want to share
